Stockman, 2021-12-30 The World of the Bah Faith is an outstanding guide to the Bah Faith and its culture in all its geographical and historical diversity Written by a distinguished team of international contributors this volume explores the origin of this religion and contains substantial thematic articles on the living experience of the global Bah community The volume is organised into six distinct sections Leadership and Authoritative Texts Theology Humanity Society The Contemporary Bah Community History and Spread of the Bah Community These sections cover such themes as the afterlife artistic expression Bah institutions devotional life diversity economics education the environment and sustainability family life gender human nature interfaith relations international governance law marriage peace persecution philosophy race science and religion scripture spirituality and work The development of the Bah Faith is outlined in ten regional articles This volume provides an authoritative and accessible source of information on all topics important to the Bah Faith The World of the Bah Faith will be essential reading to students and scholars studying world religions and comparative religion It will also be of interest to those in related fields such as sociology political science anthropology and ethics      Church and State Sen McGlinn, 2005 This is a political theology for the Baha i Faith but it is also a philosophy for living in our globalized post modern society The author investigates the Baha i teachings concerning the separation of Church and State Government religion commerce art education and science are increasingly independent have different social functions relate differently to one another and have different meanings for us today This functional differentiation also drives the pluralism relativism and global scope of our post modern society In a society such as ours in which religious ritual is the mirror of individual distinctiveness not of collective identity in which permanent pluralism means that no one religion can provide common norms and values and in which the values of one sphere of life are not transferred to other spheres religion must find a new role in society The twentieth century has taught us that economic affairs cannot be governed by political ideologies that science must be free of doctrine that the dignity and autonomy of the individual must be respected and that church and state must be separated This is an exhaustive review of Baha i literature on the subject but the book also inquires into the scriptures of both Christianity and Islam to find that the separations of state from religion is a universal ideal Publisher s website      **Historical Dictionary of the Baha'i Faith** Hugh C.
