Value-Based Marketing for Bottom-Line success J. Nicholas DeBonis, Eric Balinski, Phil Allen, 2002-11-22. To be successful in today's marketplace, a company must integrate its traditional business functions to provide superior value to targeted customers. This means creating an offering that echoes in the customer's consciousness as a great deal for them. Why? Because the value provided serves the customer's best interests. In so doing, a business succeeds, attracts new customers, and is able to continually improve the value offered to existing customers. *Value-Based Marketing for Bottom-Line Success* provides a 5-step model and critical tools necessary for creating and managing a successful Value Delivery marketing strategy. Customers buy value, not product or features. They buy from the company that provides the most value. And they buy what's in their best interest. Consequently, the secret to customer retention and growing value relationships with customers is to always make it in their best interest to do business with you by providing the best value in the marketplace. *Value-Based Marketing for Bottom-Line Success: 5 Steps to Creating Competitive Value* offers a Value Creation and Delivery process which will help a company to compete profitably in its marketplace by:

1. identifying the value expectations of target customers
2. selecting the values on which it wants to compete
3. analyzing the ability within the organization to deliver that value
4. communicating the value
5. delivering the value promised
