Fóti, 2020-03-01 A study of the significance of the visual arts in Merleau Ponty's aesthetics in relation to the work of five artists not known or discussed by him Merleau Ponty's phenomenological ontology engages deeply with visual art and this aspect of his work remains significant not only to philosophers but also to artists art theorists and critics Until recently scholarly attention has been focused on the artists he himself was inspired by and wrote about chiefly C zanne Klee Matisse and Rodin Merleau Ponty at the Gallery expands and shifts the focus to address a range of artists Giorgio Morandi Kiki Smith Cy Twombly Joan Mitchell and Ellsworth Kelly whose work came to prominence in the second half of the twentieth century and thus primarily after the philosopher's death V ronique M F ti does not confine her analyses to Merleau Ponty's texts which now importantly include his late lecture courses but also engages directly with the art Of particular concern to her is the art's ethical bearing especially as related to animal and vegetal life The book's concluding chapter addresses the still widespread rejection of beauty as an aesthetic value The book operates along several lines at once offering insightful and new critical readings of

artists through the lens of Merleau Ponty's scholarship Clearly written and engaging it will be of interest to a wide range of scholars and students Rajiv Kaushik Brock University
