Cyber Rebels:

Cyberwar Jens David Ohlin, Kevin Govern, Claire Oakes Finkelstein, 2015 Cyber warfare has become more pervasive and more complex in recent years It is difficult to regulate as it holds an ambiguous position within the laws of war This book investigates the legal and ethical ramifications of cyber war considering which sets of laws apply to it and how it fits into traditional ideas of armed conflict

Race in Cyberspace Beth Kolko, Lisa Nakamura, Gilbert Rodman, 2013-08-21 Groundbreaking and timely *Race in Cyberspace* brings to light the important yet vastly overlooked intersection of race and cyberspace

Contemporary Homo Ludens Halina Mielicka-Pawłowska, 2016-08-17 Play allows the fulfilment of one's dreams yet also teaches subjugation to the norms governing daily life Furthermore traditional forms of play transmitted from one generation to another guarantee a culture's continuance and perpetuation in time Contemporary forms of play integrate a populace creating a specific community of laughter which places a high value on individuality and the ability to lead social games Play invalidates social divisions but also diversifies behaviours through the introduction of changes in the rules depending on the age of those engaged Furthermore it adapts to the forms by which social reality is created as well as that reality's goals which in turn impart sense and meaning to something which of its own nature seems deprived thereof

Digital Media and Democracy Megan Boler, 2010-08-13 Media scholars artists activists and journalists discuss how the uses of the emerging Social Web redefine the public sphere and influence mainstream journalism In an age of proliferating media and news sources who has the power to define reality When the dominant media declared the existence of WMDs in Iraq did that make it a fact Today the Social Web sometimes known as Web 2.0 groupware or the participatory web epitomized by blogs viral videos and YouTube creates new pathways for truths to emerge and makes possible new tactics for media activism In *Digital Media and Democracy* leading scholars in media and communication studies media activists journalists and artists explore the contradiction at the heart of the relationship between truth and power today the fact that the radical democratization of knowledge and multiplication of sources and voices made possible by digital media coexists with the blatant falsification of information by political and corporate powers The book maps a new digital media landscape that features citizen journalism The Daily Show blogging and alternative media The contributors discuss broad questions of media and politics offer nuanced analyses of change in journalism and undertake detailed examinations of the use of web based media in shaping political and social movements The chapters include not only essays by noted media scholars but also interviews with such journalists and media activists as Amy Goodman of Democracy Now Media Matters host Robert McChesney and Hassan Ibrahim of Al Jazeera Contributors and Interviewees Shaina Anand Chris Atton Megan Boler Axel Bruns Jodi Dean Ron Deibert Deepa Fernandes Amy Goodman Brian Holmes Hassan Ibrahim Geert Lovink Nathalie Magnan Robert McChesney Graham Meikle Susan Moeller Alessandra Renzi Ricardo Rosas Trebor Scholz D Travers Scott Rebecca Statzel
