Michael Craig Campbell, 2005-08-01 Great towers have been destroyed Our nuclear power plants remain vulnerable to attack Many questions trouble the population of the world Did the Bible predict 21st Century terrorism Did World War III begin September 11 2001 Do we live in the chaotic last days described by ancient prophets Are we sufficiently prepared Will good prevail over evil Are the dangers of the last days both physical and spiritual The Bible contains alarming news But all the biblical shock and awe is secondary to learning the purpose of life Coincidences between scripture and current events provide clues to the catastrophic signs that will precede the 1000 year Reign of Christ God's teachings Satanic opposition terrorism prophecies both Bush Administrations nuclear war and fallout terrible disasters the Gulf and Iraq Wars World War III pornography the Abu Ghraib prison scandal are all fitting together to complete and reveal a great puzzle Eternal consequences are of great importance The scriptures counsel how to cope with latter day challenges Commandments can't be ignored without suffering consequences Procrastination is a thief Apathy towards Jesus Christ poisons the eternal soul So study ponder and pray to unlock the secrets of scripture Then chart your eternal future **Outsider Theory** Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown's *The Da Vinci Code* speculative feminist historiography Marcus Garvey's finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it

might be to protect ourselves from bad ideas Outsider Theory shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution

Da Vinci Code Decoded Martin Lunn,2004 Provides insight into the historical research used as the foundation of The Da Vinci Code and offers a tour of the locations that form important elements of the story

Sanctifying Misandry Katherine K. Young,Paul Nathanson,2010 In Sanctifying Misandry Katherine Young and Paul Nathanson challenge an influential version of modern goddess religion one that undermines sexual equality and promotes hatred in the form of misandry the sexist counterpart of misogyny To set the stage The authors discuss two massively popular books Dan Brown s the Da Vinci Code and Riane Eisler s the Chalice And The Blade both of which rely on a feminist conspiracy theory of history They then show how some goddess feminists and their academic supporters have turned what Christians know as the Fall of Man into the fall of men In the beginning according to three documentary films our ancestors lived in an egalitarian paradise under the aegis of a benevolent great goddess But men either rebelled or invaded replacing the goddess with gods and establishing patriarchies that have oppressed women ever since In the end however women will restore the goddess and therefore paradise as well The book concludes with several case studies of modern goddess religion and its effects on mainstream religion Young and Nathanson show that we can move beyond not only both gynocentrism and androcentrism but also both misandry and misogyny
