Dagobert Un Roi Pour Un Peuple:

Dagobert Laurent Theis,1982 **The Merovingians in Historiographical Tradition** Yaniv Fox,2023-11-16 The Merovingian centuries were a foundational period in the historical consciousness of western Europe The memory of the first dynasty of Frankish kings their origin myths accomplishments and failures were used by generations of chroniclers propagandists and historians to justify a wide range of social and political agendas The process of curating and editing the source material gave rise to a recognizable Merovingian narrative with three distinct phases meteoric ascent stasis and decline Already in the seventh century Chronicle of Fredegar this tripartite model was invoked by a Merovingian queen to prophesy the fate of her descendants This expert commentary sets out to understand how the story of the Merovingians was shaped through a process of continuous historiographical adaptation It examines authors from across a millennium of historical writing and analyzes their influences and objectives charting the often unexpected ways in which their narratives were received and developed Mémoires du peuple français depuis son origine jusqu'à nos jours Augustin Challamel,1873
