# A Comprehensive Guide to Child Psychotherapy

Christiane Brems, an experienced psychotherapist and educator, offers a comprehensive, integrated approach to psychotherapy with children aged 4 to 12 years. Her research reveals that the combination of psychoanalysis and behavioral approaches creates change in children and helps the therapist recognize specific features in a child's life. Brems's clear, step-by-step writing style makes this an excellent book for both practitioners and students. It is appropriate for courses in clinical or counseling psychology, counselor education, clinical social work, marriage and family counseling, and child psychiatry.

### Outstanding features...

- Offers an integrative, experiential, family systems, and self-psychoanalytical approach to therapy
- Illustrates the importance of crises in an actual treatment situation, making it possible to read along in the book as the therapy of a child unfolds
- Does not provide any single theoretical approach to psychotherapy, but instead provides a thorough foundation for assessment and conceptualization that can be tailored to the child
- Discusses a variety of treatment techniques, including play therapy, art, storytelling, behavior modification, and parent education

## **Comprehensive Guide To Child Psychotherapy:**

**A Comprehensive Guide to Child Psychotherapy and Counseling** Christiane Brems, Christina H.

Rasmussen, 2018-08-08 Christiane Brems in collaboration with new coauthor Christina Rasmussen introduces prospective and practicing clinicians to theories and principles of applied clinical work with children ages three to twelve years. The authors take an integrated approach to understanding children and their families using a biopsychosociocultural model for conceptualization and treatment planning. Their methods are practical and compassionate as well as contextually grounded and individually tailored. Chapters follow the logical development of clinicians mirroring the natural flow of work with children. Coverage ranges from the importance of a beginning practitioner's introspection and of ethical and legal issues to a variety of intervention techniques and strategies and finally termination. Case studies showcase individualized and mindful treatment for each child with whom a clinician works. Outstanding Features of the Fourth Edition: Essential attention to how clinicians' self-awareness can lead to positive therapeutic relationships with children and their families. Thorough discussions of the biopsychosociocultural model for conceptualization and treatment planning. Emphasis on intensive assessment prior to treatment planning to address the needs of each child and family. A compelling practical exploration of mindfulness intervention with children. The authors' methodology addresses the profound effects of the larger environment and culture on children. By adopting the authors' integrated approach, clinicians are better able to understand important and complicated aspects of a child's and family's life. From there, compassionate, thoughtful, and relevant intervention ensues. **A**

neuropsychology has developed as an important discipline for understanding and treating a variety of child and adolescent disorders. With neuropsychological assessment more widely used in school settings than ever before, school psychologists require greater knowledge of both the discipline and its application in a school environment. Bridging theory and practice, the *Handbook of School Neuropsychology* provides critical information on neuroanatomy, assessment, and practical evidence-based interventions for a variety of childhood neuropsychological difficulties and disabilities. Featuring contributions from leading experts, this groundbreaking resource covers all aspects of school neuropsychology from training and credentialing, assessment and intervention to understanding and serving students with specific disorders or diseases. This hands-on resource also features an appendix filled with useful tools including a comprehensive neuropsychological questionnaire, sample neuropsychological evaluations, a list of associations, as well as sample neuropsychologically based IEPs. The text presents the material in five sections covering: Foundations of school neuropsychological practice; Development, structure, and functioning of the brain; Neuropsychological assessment for intervention; Understanding and serving learners with diseases and disorders; and from special populations to neuropsychological interventions in schools. The most comprehensive reference on the theory and practice of school neuropsychology, the *Handbook of School Neuropsychology* is an indispensable tool for school and child psychologists, special education professionals, and students in both fields. **Basic Skills in**

**Psychotherapy and Counseling**, Christiane Brems, 2001. This engaging, straightforward, and easy-to-read text is designed to prepare students for beginning mental health practice by helping them develop an overall appreciation of counseling and psychotherapy along with the basic skills they will need to work effectively with clients. Skill-building exercises throughout the text help students master four types of skills: personal and professional development skills, including cultural sensitivity; communication skills; skills associated with the client's thoughts; cognitive skills; and skills associated with the client's emotions; affective skills.

**Counseling for Racial Understanding**, 1994. This book is a practical guide for professional counselors and others concerned with evaluating and reducing the effects of prejudice. It is based on the concept that before victims of prejudice can be helped, the nature of prejudice and its effect on all individuals must be understood. Full of real-world advice, this book addresses how to identify the problem, handle prejudice-related events, initiate post-event counseling, meet the needs of the victims, counsel those who act on feelings of racism, and bring about permanent change. Chapters are: 1. Prejudice and Its Forms of Expression; 2. Characteristics of Affected Populations: People Who Are Prejudiced; 3. Characteristics of Affected Populations: People Who Are the Targets of Prejudice; 4. Defining a Prejudice-Related Event; 5. Short-Term Responses to Overt Events; 6. Establishing an Environment for Community-Directed Counseling; and 7. Foundations for Permanent Change. Contains 10 references and an annotated resource list. LSR.
