Solomon, 2013-10-20 The history of railroading in North America is as much a story of boardroom intrigue as it is a story of

presenting 50 family trees in the style of human lineages The story begins with the railroads of the Golden Age 1890 1930
continuing through the second wave of consolidations between the World Wars the merger mania of the 1950s through the
1970s the creation of major passenger networks and the megamergers of the last three decades that have left railroading
close to its current incarnation Solomon even offers a selection of maps tracing the evolution of the *North American rail*
system and diagrams proposing what if scenarios for the industry's future Including chapter by chapter narrative overviews
of key eras along with a selection of rare photography and period advertising to lend historical context *North American*
