Compulsory Compassion A Critique Of Restorative Justice:

Compulsory Compassion Annalise E. Acorn, 2004 Restorative justice is often touted as the humane and politically progressive alternative to the rigid philosophy of retributive punishment that underpins many of the world's judicial systems. Emotionally seductive, its rhetoric appeals to a desire for a right relation among individuals and communities and offers us a vision of justice that allows for the mutual healing of victim and offender and with it a sense of communal repair. In *Compulsory Compassion* Annalise Acorn, a one-time advocate for restorative justice, deconstructs the rhetoric of the restorative movement. Drawing from diverse legal, literary, philosophical, and autobiographical sources, she questions the fundamental assumptions behind that rhetoric: that we can trust wrongdoers' performances of contrition; that healing lies in a respectful face-to-face encounter between victim and offender; and that the restorative idea of right relation holds the key to a reconciliation of justice and accountability on the one hand with love and compassion on the other. *The Psychology of Restorative Justice* Theo Gavrielides, 2016-02-24 This ground-breaking collection dares to take the next step in the advancement of an autonomous, interdisciplinary restorative justice field of study. It brings together criminology, social psychology, legal theory, neuroscience, affect script psychology, sociology, forensic mental health, political sciences, psychology, and positive psychology to articulate for the first time a psychological concept of restorative justice. To this end, the book studies the power structures of the restorative justice movement, the very psychology, motivations, and emotions of the practitioners who implement it, as well as the drivers of its theoreticians and researchers. Furthermore, it examines the strengths and weaknesses of our own societies and the communities that are called to participate as parties in restorative justice. Their own biases, hunger for power and control, fears, and hopes are investigated. The psychology and dynamics between those it aims to reach, as well as those who are funding it, including policy makers and politicians, are looked into. All these questions lead to creating an understanding of the psychology of restorative justice. The book is essential reading for academics, researchers, policymakers, practitioners, and campaigners. **Compassionate Justice** Christopher D. Marshall, 2012-08-01 Two parables that have become firmly lodged in popular consciousness and affection are the parable of the Good Samaritan and the parable of the Prodigal Son. These simple but subversive tales have had a significant impact historically on shaping the spiritual, aesthetic, moral, and legal traditions of Western civilization, and their capacity to inform debate on a wide range of moral and social issues remains as potent today as ever. Noting that both stories deal with episodes of serious interpersonal offending and both recount restorative responses on the part of the leading characters, *Compassionate Justice* draws on the insights of restorative justice theory, legal philosophy, and social psychology to offer a fresh reading of these two great parables. It also provides a compelling analysis of how the priorities commended by the parables are pertinent to the criminal justice system today. The parables teach that the conscientious cultivation of compassion is essential to achieving true justice. Restorative justice strategies, this book argues, provide a promising and

practical means of attaining to this goal of reconciling justice with compassion **Facing the Limits of the Law** Erik Claes, Wouter Devroe, Bert Keirsbilck, 2009-04-21 Many legal experts no longer share an unbounded trust in the potential of law to govern society efficiently and responsibly They often experience the limits of the law as they are confronted with striking inadequacies in their legal toolbox with inner inconsistencies of the law with problems of enforcement and obedience and with undesired side effects and so on The contributors to this book engage in the challenging task of making sense of this experience Against the background of broader cultural transformations such as globalisation new technologies individualism and cultural diversity they revisit a wide range of areas of the law and map different types of limits in relation to some basic functions and characteristics of the law Additionally they offer a set of strategies to manage justifiably law's limits such as dedramatising law's limits conceptual refinement constructivism striking the right balance between different functions of the law seeking for complementarity between law and other social practices **Punishment** Thom Brooks, 2012-11-14

Punishment is a topic of increasing importance for citizens and policymakers Why should we punish criminals Which theory of punishment is most compelling Is the death penalty ever justified These questions and many others are addressed in this highly engaging guide Punishment is a critical introduction to the philosophy of punishment offering a new and refreshing approach that will benefit readers of all backgrounds and interests The first critical guide to examine all leading contemporary theories of punishment this book explores among others the communicative theory of punishment restorative justice and the unified theory of punishment Thom Brooks examines several case studies in detail including capital punishment juvenile offending and domestic abuse Punishment highlights the problems and prospects of different approaches in order to argue for a more pluralistic and compelling perspective that is novel and groundbreaking Punishment is a textbook designed to introduce both undergraduate and postgraduate students to the topic of punishment It will be essential for undergraduate students in philosophy criminal justice criminology justice studies law politics and sociology

Redeeming a Prison Society Amy Levad, 2014 The United States criminal justice system is in a state of crisis from unprecedented rates of imprisonment and recidivism to the privatization of the prison system and the disproportionate representation of particular racial ethnic social and economic groups all of which is within a larger social justice context Catholics and Protestants have largely failed to offer vital theological responses Amy Levad offers a Catholic perspective that directly addresses the concrete issues from a strongly interdisciplinary approach and utilizes the rich liturgical and sacramental resources of penance and Eucharist to offer a theological vision of reform **Alberta Law Review**, 2010
