Computational Science -- ICCS 2005 V.S. Sunderam, G. Dick van Albada, Peter M.A. Sloot, Jack Dongarra, 2005-05-04. The Fifth International Conference on Computational Science ICCS 2005 held in Atlanta Georgia USA May 22-25 2005 continued in the tradition of previous conferences in the series ICCS 2004 in Krakow Poland ICCS 2003 held simultaneously at two locations in Melbourne Australia and St Petersburg Russia ICCS 2002 in Amsterdam The Netherlands and ICCS 2001 in San Francisco California USA. Computational science is rapidly maturing as a mainstream discipline. It is central to an ever expanding variety of fields in which computational methods and tools enable new discoveries with greater accuracy and speed. ICCS 2005 was organized as a forum for scientists from the core disciplines of computational science and numerous application areas to discuss and exchange ideas results and future directions. ICCS participants included researchers from many application domains including those interested in advanced computational methods for physics chemistry life sciences engineering economics and finance arts and humanities as well as computer system vendors and software developers. The primary objectives of this conference were to discuss problems and solutions in all areas to identify new issues to shape future directions of research and to help users apply various advanced computational techniques. The event highlighted recent developments in algorithms computational kernels next generation computing systems tools advanced numerical methods data driven systems and emerging application fields such as complex systems finance bioinformatics computational aspects of wireless and mobile networks graphics and hybrid computation.
