**Ying Liu**

## **Computer Communication Review Sigcomm 93:**

**NETWORKING 2000. Broadband Communications, High Performance Networking, and Performance of Communication Networks** Guy Pujolle, Harry Perros, Serge Fdida, Ulf Körner, Ioannis Stavrakakis, 2003-06-29 This was the first conference jointly organized by the IFIP Working Groups 6.2, 6.3 and 6.4. Each of these three Working Groups has its own established series of conferences. Working Group 6.2 sponsors the Broadband Communications series of conferences: Paris 1995, Montreal 1996, Lisboa 1997, Stuttgart 1998 and Hong Kong 1999. Working Group 6.3 sponsors the Performance of Communication Systems series of conferences: Paris 1981, Zurich 1984, Rio de Janeiro 1987, Barcelona 1990, Raleigh 1993, Istanbul 1995 and Lund 1998. Working Group 6.4 sponsors the High Performance Networking series of conferences: Aachen 1987, Liège 1988, Berlin 1990, Liège 1992, Grenoble 1994, Palma 1995, New York 1997, Vienna 1998. It is expected that this new joint conference will take place every two years. In view of the three sponsoring Working Groups there were three separate tracks, one per Working Group. Each track was handled by a different co-chairman. Specifically, the track of Working Group 6.2 was handled by Ulf Körner, the track of Working Group 6.3 was handled by Ioannis Stavrakakis, and the track of Working Group 6.4 was handled by Serge Fdida. The overall program committee chairman was Harry Perros and the general conference chairman was Guy Pujolle. A total of 209 papers were submitted to the conference, of which 82 were accepted. Each paper was submitted to one of the three tracks.

**Protocols for High Speed Networks IV** G. Neufeld, M. Ito, 2013-11-11 Welcome to the fourth IFIP workshop on protocols for high speed networks in Vancouver. This workshop follows three very successful workshops held in Zurich 1989, Palo Alto 1990 and Stockholm 1993 respectively. We received a large number of papers in response to our call for contributions. This year forty papers were received, of which sixteen were presented as full papers and four were presented as poster papers. Although we received many excellent papers, the program committee decided to keep the number of full presentations low in order to accommodate more discussion in keeping with the format of a workshop. Many people have contributed to the success of this workshop, including the members of the program committee who, with the additional reviewers, helped make the selection of the papers. We are thankful to all the authors of the papers that were submitted. We also thank several organizations which have contributed financially to this workshop, specially NSERC, ASI, CICS, R, UBC, MPR, Teltech and Newbridge Networks.

**Multimedia, Telecommunications, and Applications** Giorgio Ventre, Jordi Domingo-Pascual, Andre Danthine, 1996-11-19 This book constitutes the refereed proceedings of the Third International COST 237 Workshop held in Barcelona, Spain, in November 1996. The 15 revised full papers presented in the volume were carefully selected from a total of 34 submissions by COST project participants as well as from outside. The papers are organized in sections on: multipoint and group communication, quality of service, applications and teleservices, multimedia protocols and platforms, and performance studies.

**Multimedia Modeling: Towards Information Superhighway** Tat Seng Chua, 1995-11-10 The process of integrating multiple senses and media into computer systems accelerated recently.

This has broadened the applications of multimedia from the traditional areas of information organization presentation and learning to the new fields of simulation and virtual reality Applications that have benefited from the introduction of multimedia include training demonstration of products for sales or inventory education computer aided design and engineering medicine weather and entertainment This volume is devoted to the discussion of effective modeling of multimedia information and systems for a wide range of applications It is perhaps the only book that devotes entirely to this important but much neglected topic

**Proceedings of ACM SIGCOMM ... Conference**, 1995 Conference Proceedings Communications Architectures, Protocols and Applications Association for Computing Machinery Special Interest Group on Data Communication, 1993

**Conference Proceedings on Applications, Technologies, Architectures, and Protocols for Computer Communications**, 1996 **Communications, Architectures & Protocols, SIGCOMM '93 Conference Proceedings** Association for Computing Machinery. Special Interest Group on Data Communications, 1993

*The Structure and Dynamics of Networks* Mark Newman, Albert-László Barabási, Duncan J. Watts, 2011-10-23 From the Internet to networks of friendship disease transmission and even terrorism the concept and the reality of networks has come to pervade modern society But what exactly is a network What different types of networks are there Why are they interesting and what can they tell us In recent years scientists from a range of fields including mathematics physics computer science sociology and biology have been pursuing these questions and building a new science of networks This book brings together for the first time a set of seminal articles representing research from across these disciplines It is an ideal sourcebook for the key research in this fast growing field The book is organized into four sections each preceded by an editors introduction summarizing its contents and general theme The first section sets the stage by discussing some of the historical antecedents of contemporary research in the area From there the book moves to the empirical side of the science of networks before turning to the foundational modeling ideas that have been the focus of much subsequent activity The book closes by taking the reader to the cutting edge of network science the relationship between network structure and system dynamics From network robustness to the spread of disease this section offers a potpourri of topics on this rapidly expanding frontier of the new science

**Record of Proceedings**, 1995 **Multimedia Communications and Video Coding** H.L. Bertoni, S.P. Kim, S. Panwar, Y. Wang, 2012-12-06 This book constitutes the proceedings of the International Symposium on Multimedia Communications and Video Coding ISMCVC95 held October 11-13 1995 at the Polytechnic University in Brooklyn New York This Symposium was organized under the auspices of the New York State funded Center for Advanced Technology in Telecommunications CATT in cooperation with the Communications Society and the Signal Processing Society of the Institute of Electrical and Electronic Engineers IEEE In preparing this book we have summarized the topics presented in various sessions of the Symposium including the keynote addresses the Service Provider and Vendor Session the Panel Discussion as well as the twelve Technical Sessions This summary is presented in the

Introduction Full papers submitted by the presenters are organized into eleven chapters divided into three parts Part I focuses on systems issues in multimedia communications Part II concentrates on video coding algorithms Part III discusses the interplay between video coding and network control for video delivery over various channels

**Protocols for High-Speed Networks V** Walid Dabbous, Christophe Diot, 1996-10-31 We are happy to welcome you to the IFIP Protocols for High Speed Networks 96 workshop hosted by INRIA Sophia Antipolis This is the fifth event in a series initiated in Zurich in 1989 followed by Palo Alto 1990 Stockholm 1993 and Vancouver 1994 This workshop provides an international forum for the exchange of information on protocols for high speed networks The workshop focus on problems related to the efficient transmission of multimedia application data using high speed networks and internetworks Protocol for High Speed Networks is a working conference That explains we have privileged high quality papers describing on going research and novel ideas The number of selected papers was kept low in order to leave room for discussion on each paper Together with the technical sessions working sessions were organized on hot topics We would like to thank all the authors for their interest We also thank the Program Committee members for the level of effort in the reviewing process and in the workshop technical program organization We finally thank INRIA and DRET for their financial support to the organization of the workshop

**Communications Architectures & Protocols**, 1993 **High Performance Networking** Ramon Puigjaner, 2013-06-05 The communication of information is a crucial point in the development of our future way of life We are living more and more in an information society Perhaps the more obvious applications are those devoted to distributed cooperative multimedia systems In both industry and academia people are involved in such projects HPN 95 is an international forum where both communities can find a place for dialogues and interchanges The conference is targeted to the new mechanisms protocols services and architectures derived from the need of emerging applications as well as from the requirements of new communication environments This workshop belongs to the series started in 1987 in Aachen Germany followed by Liege Belgium in 1988 Berlin Germany in 1991 Liege Belgium again in 1992 and Grenoble France in 1994 HPN 95 is the sixth event of the series sponsored by IFIP WG 6.4 and will be held at the Arxiduc Lluís Salvador building on the campus of the University of the Balearic Islands in Palma de Mallorca Spain from September 13 to 15
