Computer Vision and Computer Graphics. Theory and Applications José Braz, Alpesh Kumar Ranchordas, Hélder J. Araújo, Joao Madeiras Pereira, 2008-12-05. This book includes selected papers from VISIGRAPP 2007, the Joint Conference on Computer Vision and Computer Graphics comprising two component conferences: namely the International Conference on Computer Vision Theory and Applications (VISAPP) and the International Conference on Computer Graphics Theory and Applications (GRAPP) held in Barcelona, Spain during March 8-11, 2007. We received quite a high number of paper submissions: 382 in total for both conferences. We had contributions from more than 50 countries in all five continents. This confirms the success and global dimension of these jointly organized conferences. After a rigorous double-blind evaluation method, a total of 78 submissions were accepted as full papers. From those, 18 got selected for inclusion in this book. To ensure the scientific quality of the contributions, these were selected from papers that were evaluated with the highest scores by the VISIGRAPP Program Committee members, and then they were extended and revised by the authors. Special thanks go to all contributors and referees without whom this book would not have been possible. VISIGRAPP 2007 included four invited keynote lectures presented by internationally recognized researchers. The presentations represented an important contribution to increasing the overall quality of the conference. We would like to express our appreciation to all invited keynote speakers in alphabetical order: Jake K. Aggarwal, The University of Texas at Austin, USA; Andrzej Gagalowicz, INRIA, France; Wolfgang Heidrich, University of British Columbia, Canada; Mel Slater, Universitat Politècnica de Catalunya, Spain. *Computer Vision, Imaging and Computer Graphics: Theory and Applications* Alpesh Kumar Ranchordas, Joao Madeiras Pereira, Hélder J. Araújo, Joao Tavares, 2010-08-16. This book includes extended versions of the selected papers from VISIGRAPP 2009, the International Joint Conference on Computer Vision, Imaging and Computer Graphics Theory and Applications, which was held in Lisbon, Portugal during February 5-8, 2009, and organized by the Institute for Systems and Technologies of Information Control and Communication (INSTICC). VISIGRAPP comprises three component conferences: namely the International Conference on Computer Vision Theory and Applications (VISAPP), the International Conference on Computer Graphics Theory and Applications (GRAPP), and the International Conference on Imaging Theory and Applications (IMAGAPP). VISIGRAPP received a total of 422 paper submissions from more than 50 countries. From these, and after a rigorous double-blind evaluation method, 72 papers were published as full papers. These figures show that this conference is now an established venue for researchers in the broad fields of computer vision, computer graphics, and image analysis. From the full papers, 25 were selected for inclusion in this book. The selection process was based on the scores assigned by the Program Committee reviewers, as well as the Session Chairs. After selection, the papers were further revised and extended by the authors. Our gratitude goes to all contributors and referees.
