Computers As Assistants A New Generation Of Support Systems:

Computers As Assistants Peter Hoschka, 2021-01-31 Computer systems based on the notion of the computer as assistant have recently become the focus of intense interest The expanding role of the computer in everyday life and the growing number of untrained users make it necessary to think about new ways of dividing labor between humans and machines Future systems must take on more tasks and perform them more competently and autonomously than existing systems If they are to be adequately flexible and responsive to complexity they cannot automate their performance completely The aim of designers should be to create computer systems with capabilities similar to those of good assistants in the real world Effective assistance has many characteristics An assistant is expected to be competent in some domains of expertise to know the limits of his her knowledge to be able to process inexact instructions from clients to adjust to and learn from them to explain his her behavior and suggestions and to support clients in communication and cooperation with other people This book believes that such capabilities can be built into computer systems To that end the chapter contributors discuss the concepts and methods particularly from the fields of artificial intelligence and computer supported cooperative work CSCW that they have drawn from to develop successful system prototypes They present several of these prototypes including assistants for graphics design knowledge discovery in data bases coordination support organizational memory user interface design and knowledge base construction As such this volume helps map out the future for all those involved in computer systems design

Community Computing and Support Systems Toru Ishida, 1998-12-15 The widespread use of global networks like the Internet and mobile computing have made worldwide computing over virtual communities a reality This is the first book devoted to community computing It is based on the Kyoto Meeting on Social Interaction and Communityware held in Kyoto Japan in June 1998 The 24 revised full papers presented together with an introduction to the emerging field were carefully selected and revised for inclusion in the book The book is divided in parts on models and concepts methodologies for large scale trials sharing knowledge and preferences supporting social interaction and agent technologies in communities

The 19th International Conference on Soft Computing Models in Industrial and Environmental Applications SOCO 2024 Héctor Quintián, Emilio Corchado, Alicia Troncoso Lora, Hilde Pérez García, Esteban Jove, José Luis Calvo Rolle, Francisco Javier Martínez de Pisón, Pablo García Bringas, Francisco Martínez Álvarez, Álvaro Herrero Cosío, Paolo Foschi, 2024-11-19 This volume of Advances in Intelligent and Soft Computing contains accepted papers presented at the SOCO 2024 conference held in the beautiful and historic city of Salamanca Spain in October 2024 Soft computing represents a collection or set of computational techniques in machine learning computer science and some engineering disciplines that investigate simulate and analyze very complex issues and phenomena After a thorough peer review process the 18th SOCO 2023 International Program Committee selected 62 papers for publication in these conference proceedings representing an acceptance rate of 50% In this relevant edition a particular emphasis was put on organizing special sessions Four special

sessions were organized related to relevant topics such as Machine Learning and Computer Vision in Industry 4.0 Intelligent Models and Frameworks for Smart Agriculture and Green Economy Computational Intelligence Applied to Modelling and Control of Engineering Systems and Applied Machine Learning 2nd Edition The selection of papers was extremely rigorous to maintain the high quality of the conference We want to thank the members of the Program Committees for their hard work during the reviewing process This is a crucial process for creating a high standard conference the SOCO conference would not exist without their help
