Computer-Supported Cooperative Work Uwe M. Borghoff, Johann H. Schlichter, 2013-11-09 The terms groupware and CSCW computer supported cooperative work have received significant attention in computer science and related disciplines for quite some time now This book is a revised and extended version of the 2nd edition of the German textbook Rechnergestützte Gruppenarbeit Eine Einführung in verteilte Anwendungen It has two main objectives first to outline the meaning of both terms and second to point out both the numerous opportunities for users of groupware and the risks of applying such systems The book intends to introduce an area of distributed systems namely the computer support of individuals trying to solve a common problem in cooperation with each other but not necessarily having identical work paces or working times Computer supported cooperative work is an interdisciplinary application domain It can be viewed as a synergism between the areas of distributed systems and multimedia communication on the one hand and between those of information science and socio organizational theory on the other hand Thus the book is meant to help students of all these disciplines as well as users and developers of systems which have communication and cooperation within groups as top priorities

Computer

Supported Cooperative Work Edeltraud Egger,1996 The book deals with the bargaining aspect of computer supported cooperative work Time management of working groups has to include personal time and task preferences of the group members Therefore the book deals with various issues of work distribution in particular with conflict handling and its technical support The book offers an interdisciplinary treatment of time aspects in working groups Besides theoretical investigation from several different scientific fields empirical case studies are presented ACM 1998 Conference on Computer Supported Cooperative Work ,1998 **CSCW in Practice: an Introduction and Case Studies** Dan

Diaper,Colston Sanger,2012-12-06 Dan is this book going to provide a substantial coherent and timely contribution to CSCW or is it just going to be a ragbag of papers from several meetings stuck together The latter of course Colston However and the However was rather long and technical but not substantially different in overall content from that of this preface Most of the papers contained in this book were initially presented at meetings organized by the UK s Computer Supported Cooperative Work CSCW Special Interest Group in 1991 but the book is not a proceedings whatever the above quotation suggests Readers will immediately notice that unlike typical proceedings all the references are placed together at the end of the book and that there is a substantial index the hall mark of all proper technical books of quality If you choose to delve further than this preface you will find that each chapter is cross referenced thus you also gain a coherent structure across chapters an advantage traditionally associated with high quality single author books Furthermore turning apparent disadvantage to advantage while single author books must inevitably present the idiosyncratic perspective of their author in this book and appropriately for a young area such as CSCW you will be presented with the views of a dozen CSCW experts who all have considerable hard won experience gained over many years CSCW in Practice Dan Diaper,1993

Computer Support for Co-operative Work Kathy Spurr,1994 In recent years globalization of the market place has presented new challenges for co operative working Organizations must assemble team members having varying skills and experiences in widely dispersed locations dealing with several issues such as overall strategy analysis design marketing production and administration CSCW represents a field of high activity in terms of new tools and technological advances As well as descriptions of a selection of tools available in the marketplace details of practical experience and suggestions for future development from those involved in the design use and management of facilities for CSCW are included in this text
