Computer Assisted Reporting:

Computer-assisted Reporting Bruce Garrison, 1995 This book presents an overview of what is suddenly happening within the relatively new field called computer assisted reporting CAR The rapid rate at which personal computing is changing has made it a tool for journalists And as personal computing grows so do its applications in the media newsroom To introduce journalists to computer assisted reporting this book describes how leading journalists are using personal computers for more than just writing in the news gathering process American society has been inundated by a flood of computerized public and private records Many records formerly kept on paper are now stored in computers Many records that were never before kept are now retained in databases And records that are not computerized can very easily be converted into databases These developments have prompted journalists to become increasingly more involved with computers during the past decade Much if not most news reporting now depends upon the use of computers Knowledge of how to access and use computer databases is essential for the journalists of the future This book focuses on the computerization of news reporting Not only does the personal computer of the mid 1990s assist journalists by making writing easier it makes reporting more efficient The book begins with a demonstration of methods reporters can use to get more from their computers data retrieval and analysis information storage and dissemination of that information in both processed and unprocessed forms The book concludes with a proposal for development of computer literacy in the newsroom This is not a how to book It is best described as a what s happening book because it discusses current and future developments in the use of computers for information gathering by the news media The single most important focus is on the changing nature of news reporting in the wake of down sizing down pricing up powering and up speeding of business type desktop and portable personal computers Numerous new approaches to reporting and research have developed in the past decade in parallel with the evolution of personal computers With these new techniques coming to the field of reporting in the mid 1990s there is need for a book that covers both the merger of traditional information gathering methods and the newly developing ones This book introduces readers to the new information gathering and analytical techniques evolving with new computer based technology Successful Strategies for Computer-assisted Reporting Bruce Garrison, 2013-10-18 Computers have changed the landscape of both gathering and disseminating information throughout the world As journalists quickly move toward the 21st century and perhaps a new era of electronic journalism resources are needed to understand the newest and most successful computer based news reporting strategies Written to serve that purpose this book is designed to show both professional journalists and students which of the newest personal computing tools are being used by the nation s leading news organizations and top individual journalists It further describes how these resources are being used on a daily basis and for special projects In recent years computers have taken on new and dominating roles in the process of news analysis newsgathering and news processing Today s forward thinking journalists often seek guidance over what they can do to strengthen their ability to be society s information

processors and managers This volume focuses upon how successful journalists are using computers through a major national computer assisted reporting CAR study of daily newspapers The study included two national surveys and a series of personal interviews with many of the nation s leading CAR specialists Several current examples of stories used for successful database and online oriented news assignments are provided as part of a series of case studies incorporated throughout the book The additional depth of description and the presentation of portions of stories themselves should help readers to understand the complete process involving CAR oriented journalism Substantial analytical detail is used to discuss the extent of computer use in newsrooms computer training CAR projects CAR in daily reporting hardware and software most commonly used levels and types of online services used in news research and portable hardware and software The book concludes with the author s assessment of the effects and impact of personal computing in the newsroom and the future of personal computer applications in newsgathering Explaining and defining advanced applications or terminology for readers the approach to the book assumes a minimal familiarity with computers but no advanced knowledge of computer operation

Data for Journalists Brant Houston,2018-12-17 This straightforward and effective how to guide provides the basics for any reporter or journalism student beginning to use data for news stories It has step by step instructions on how to do basic data analysis in journalism while addressing why these digital tools should be an integral part of reporting in the 21st century In an ideal core text for courses on data driven journalism or computer assisted reporting Houston emphasizes that journalists are accountable for the accuracy and relevance of the data they acquire and share With a refreshed design this updated new edition includes expanded coverage on social media scraping data from the web and text mining and provides journalists with the tips and tools they need for working with data

Computer-Assisted Reporting Brant Houston,2014-11-21 This straightforward and effective how to guide provides the basics for any journalist or student beginning to use data for news stories It has step by step instructions on how to do basic data analysis in journalism while addressing why these digital tools should be an integral part of reporting in the 21st century The book pays particular attention to the need for accuracy in computer assisted reporting and to both the potential and pitfalls in utilizing large datasets in journalism An ideal core text for courses on data driven journalism or computer assisted reporting Houston pushes back on current trends by helping current and future journalists become more accountable for the accuracy and relevance of the data they acquire and share Online instructor s materials are available to adopting professors and additional exercises are available free online to students at the below address <http://ire.org/carbook> username carbook password carbook4

Introduction to Computer-assisted Reporting Matthew Reavy,2001 While demystifying the use of the computer as a tool in reporting methods Introduction to Computer Assisted Reporting maintains that a computer is only supplemental to the traditional values of good journalism

Computer-assisted Reporting Bruce Garrison,1995 This book presents an overview of what is suddenly happening within the relatively new field called computer assisted reporting CAR The rapid rate at which personal computing

is changing has made it a tool for journalists And as personal computing grows so do its applications in the media newsroom To introduce journalists to computer assisted reporting this book describes how leading journalists are using personal computers for more than just writing in the news gathering process American society has been inundated by a flood of computerized public and private records Many records formerly kept on paper are now stored in computers Many records that were never before kept are now retained in databases And records that are not computerized can very easily be converted into databases These developments have prompted journalists to become increasingly more involved with computers during the past decade Much if not most news reporting now depends upon the use of computers Knowledge of how to access and use computer databases is essential for the journalists of the future This book focuses on the computerization of news reporting Not only does the personal computer of the mid 1990s assist journalists by making writing easier it makes reporting more efficient The book begins with a demonstration of methods reporters can use to get more from their computers data retrieval and analysis information storage and dissemination of that information in both processed and unprocessed forms The book concludes with a proposal for development of computer literacy in the newsroom This is not a how to book It is best described as a what s happening book because it discusses current and future developments in the use of computers for information gathering by the news media The single most important focus is on the changing nature of news reporting in the wake of down sizing down pricing up powering and up speeding of business type desktop and portable personal computers Numerous new approaches to reporting and research have developed in the past decade in parallel with the evolution of personal computers With these new techniques coming to the field of reporting in the mid 1990s there is need for a book that covers both the merger of traditional information gathering methods and the newly developing ones This book introduces readers to the new information gathering and analytical techniques evolving with new computer based technology

Power Journalism Lisa C. Miller, 1998 Providing both practical and theoretical information for student journalists who need to know how and why POWER JOURNALISM demystifies online research by outlining and explaining computer assisted reporting techniques In clear easy to understand explanations of the latest research technologies this text details how and why journalists use specific resources and provides actual computer commands for using each resource as well as written examples by journalists who utilized the discussed technology Resources discussed include newsgroups bulletin board systems commercial databases commercial services such as Compuserve FTP Gopher the World Wide Web CD ROM databases spreadsheet and database management programs and information on nine track tape and floppy disks

Computer-assisted Investigative Reporting Margaret H. DeFleur, 2013-11-26 Conducting computer analyses for the purposes of revealing information of significance to the press represents an extension of one of the most important forms of American journalism into the contemporary era of new technologies Investigative reporting had its start with the establishment of the metropolitan newspaper during the early decades of the 1900s At the time it was a continuation of the

evolving tradition of freedom of the press that had characterized American political life since colonial times As it developed investigative reporting stressed facts rather than the opinions of the editor or reporter In turn that tradition had its own intellectual roots Today computer assisted investigative reporting CAIR extends that marketplace of ideas into systematic examinations of the electronic records of government In addition computer analyses of other kinds of information systematically gathered by journalists can provide the press with insights into trends and patterns unlikely to be revealed by other means This unique volume addresses procedures and issues in investigative journalism that have not been explained in other publications It sets forth for the first time a detailed and specific methodology for conducting computer assisted investigative analyses of both large and small scale electronic records of government and other agencies That methodology consists of the logic of inquiry strategies for reaching valid conclusions and rules for reporting what has been revealed by the analyses to the public in clear ways Such systematic methodologies are essential in social and other sciences and the development of a counterpart for investigative journalism has been badly needed That systematic methodology is developed within a context that explains the origin and major characteristics of those elements that have come together in American society to make computer assisted investigative reporting both possible and increasingly a part of standard newsroom practices These include the development of traditional investigative journalism the evolution of computer technology the use of computers by government to keep records the legal evolution of freedom of information laws the rapid adoption of computers in newsrooms the increasing importance of precision journalism and the sharp increase in recent times of computer assisted investigative reporting by American newspapers both large and small The issues addressed in this book are discussed in a very readable context with an abundance of examples and illustrations drawn from the real world of journalism as it is practiced daily in newsrooms around the country Explanations of concepts principles and procedures are set forth in layperson s terms that require very little in the way of knowledge of computers or statistical methods

Exercises in Computer-assisted Reporting Steven S. Ross,1992 **Computer-assisted Reporting** Fred Vallance-Jones,David McKie,2009 a nuts and bolts guide to finding the relevant data sources using software such as spreadsheets database managers and mapping programs to crunch the numbers and transform research results into a compelling story Real life examples of computer assisted reporting CAR by leading Canadian and American journalists show readers how to make the most of CAR skills on the job Computer assisted reporting is written specifically for journalism students and working reporters who want to upgrade their skills Straightforward easy to follow and amply illustrated with screen shots it focuses on the skills tools and applications that have the most practical value in the newsroom Blurb

Visualization for Computer-assisted Reporting Stories Yan Wang,David Herzog,University of Missouri--Columbia. School of Journalism,2009 This journalism master s project includes a professional work component and a research analysis component The professional work component details the author s experiences while working at IRE NICAR Investigative

Reporters and Editors National Institute for Computer Assisted Reporting Field notes and samples of work are included In the research and analysis component the author examines computer assisted reporting and the use of visualization This section includes a literature review and a brief analyses of data visualizations used in stories on mine safety drinking water safety United States federal agricultural subsidies firefighter safety devices counterfeit drugs and charter schools CAR in the Newsroom David Kesmodel, Charles N. Davis, University of Missouri--Columbia. School of Journalism, 2000 This journalism master s project includes a professional work component and a research component For the professional work component the author used computer assisted reporting techniques to examine U S Small Business Administration lending to Kansas City area businesses from 1995 1999 and generated several in depth stories for The Kansas City Star Includes field notes and examples of work In the research component the author compared the integration of computer assisted reporting tools in the newsrooms of The Kansas City Star and the St Louis Post Dispatch This involved a quantitative survey of reporters and follow up interviews with reporters and editors to gather qualitative information Questions focused on how often and to what degree reporters use the Internet for research and use spreadsheets and database managers to analyze data included in news stories Through the survey and interviews the author gathered information about the steps taken by managers at each newspaper to integrate CAR into the newsroom routine The author got an inside view of each newspapers philosophies toward CAR the level of penetration of CAR skills in the newsroom management s strategy toward training reporters to use CAR tools and how and to what degree the tools have been diffused in the newsroom p 8 Includes a literature review

Computer-assisted Reporting David Eddy, 1992 **Research Paper** Paul E. J. Monies, Daryl R. Moen, University of Missouri--Columbia. School of Journalism, 2001 This journalism master s project includes a professional work component and a research component The professional work component details the author s experiences working in Dateline NBC s Washington D C bureau doing computer assisted reporting and story research Includes field notes and examples of work In the research component the author designs and administers a mail survey of current and three previous years subscribers of Uplink the newsletter of the National Institute for Computer Assisted Reporting This convenience sample include s the journalists and educators who are most interested in CAR computer assisted reporting Questions will revolve around how credit and bylines are determined in the respondent s media organization and if there are any company policies governing credit for computer assisted reporting investigations p 12 Includes a literature review *Computer-assisted Reporting at the News & Observer* C. Jon Schmid, 1994 This journalism master s project includes a professional work component and a research component The professional work component details the author s experiences working as a reporter at the News Observer in North Carolina Includes field notes and examples of work In the research component the author examines computer assisted reporting Includes a literature review and a description of the author s efforts to reformat the data set represented by the North Carolina Department of Corrections master inmate file Master's Project Francesca K.

Cline,1993 This journalism master s project includes a professional work component and a research component The professional work component details the author s experiences using computer assisted reporting to produce several stories on various subjects to be published in the Columbia Missourian Includes field notes and examples of work In the research component entitled Falling in love with the numbers the pitfalls of writing a computer assisted story the author examines what it takes to produce a good computer assisted story and what pitfalls to watch out for by interviewing several reporters who use computer assisted reporting Includes interview transcripts Exercices in Computer-assisted Reporting Steven S. Ross,1994 Advantages and Disadvantages of Computer-Assisted Reporting Amy E. Williams,1994 Newsroom Tools for Computer-assisted Reporting in 1995 Bruce Garrison,1996 *Computer Assisted Reporting in Local Television Stations* John McLaughlin Dolan,1997 This journalism master s project includes a professional work component and a research component For the professional work component the author undertook a number of computer assisted investigations that aired on KOMU TV each involving acquiring data from public agencies and analyzing that data with a computerized data manager I p 2 Includes examples of work In the research component the author interviews reporters and producers who are actively involved with broadcast computer assisted reporting to get an idea of the state of the technique in local TV news III p 4 Includes a literature review

Eventually, you will certainly discover a additional experience and realization by spending more cash. still when? reach you say you will that you require to acquire those all needs later having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to understand even more on the subject of the globe, experience, some places, gone history, amusement, and a lot more?

It is your entirely own era to ham it up reviewing habit. in the middle of guides you could enjoy now is **Computer Assisted Reporting** below.

Computer Assisted Reporting Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Computer Assisted Reporting free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Computer Assisted Reporting free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Computer Assisted Reporting free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally

available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Computer Assisted Reporting. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Computer Assisted Reporting any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Computer Assisted Reporting Books

1. Where can I buy Computer Assisted Reporting books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Computer Assisted Reporting book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Computer Assisted Reporting books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Computer Assisted Reporting audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible, LibriVox, and Google Play Books offer a wide

selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Computer Assisted Reporting books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
