**Educational Media and Technology Yearbook 2003** Mary Ann Fitzgerald, Michael Orey, Robert Maribe Branch, 2003-06-30 The 28th volume of the Educational Media and Technology Yearbook describes current developments and trends in the field of instructional technology. Prominent themes for this volume include e learning, collaboration, the standards reform movement, and a critical look at the field in its historical context. The audience for the Yearbook consists of media and technology professionals in schools, higher education, and business contexts, including instructional technology faculty, school library media specialists, curriculum leaders, business training professionals, and instructional designers. The Educational Media and Technology Yearbook has become a standard reference in many libraries and professional collections.

[A First Course In Computers \(Based On Wi\)](#) Sanjay Saxena, If you are one of those who love technology not for technology's sake but for what it can do for you and if you want to be able to say that you Know Computers instead of No Computers, this is the book for you. [A First Course in Computers](#) is a computer manual, quick guide, helpdesk, and your computer teacher all rolled in one. Just keep the book in front of you, look at the sample exercises given at the beginning of each section, and start following the step by step visual instructions to complete the exercise.
