# WIMP

# NO MORE

By John Eastman

When you see a computer screen with a window, a mouse, and a keyboard, you know you're looking at a WIMP. But what does WIMP stand for? It's a common acronym for Windows, Icons, Mouse, and Point-and-click. This is the standard way of interacting with a computer. However, there are other ways to interact with a computer, such as using a keyboard or a touch screen. The WIMP paradigm is not the only way to interact with a computer, and it may not be the best way for everyone. Some people find it easier to use a keyboard, while others prefer a touch screen. The WIMP paradigm is a good starting point, but it's not the only way to interact with a computer.
