Doing Philosophy Historically:

Doing Philosophy Historically Peter H. Hare, 1988 Can original philosophy be done while simultaneously engaging in the history of philosophy Such a possibility is questioned by analytic philosophers who contend that history contaminates good philosophy and by historians of philosophy who insist that theoretical predecessors cannot be ignored Believing that both camps are misguided the contributors to this book present a case for historical philosophy as a valuable enterprise The contributors include Todd L Adams Lilli Alanen Jos Bernardete Jonathan Bennett John I Biro Phillip Cummins Georges Dicker Daniel A Dombrowski Daniel Garber Josiah Gould Jorge J E Gracia Daniel Graham Charles Griswold James Lawler Rudolf Luchte Edward H Madden George Mavrodes Gerald E Myers Jonathan R e Frithjof Rodi Kenneth L Schmitz Vladimir Shtinov David G Stern Robert Turnbull James Van Cleve Frederick Van De Pitte Henry Beatch and Richard Watson

The Uses of the Past from Heidegger to Rorty Robert Piercey, 2009-03-05 This book asks how it is possible to do philosophy by studying the thinkers of the past The answer is developed through readings of Martin Heidegger Richard Rorty Paul Ricoeur Alasdair MacIntyre and other historically minded philosophers The result is a powerful and original account of how philosophers use the past

Philosophy and the Historical Perspective Marcel van Ackeren, 2018-07-26 Some pursue philosophy via its history while others focus on current debates without reference to the past But a growing group of philosophers believe historical perspective can contribute to current debates Philosophy and the Historical Perspective explores the importance of this perspective and investigates the very nature of philosophy

How History Matters to Philosophy Robert C. Scharff, 2014-02-03 In recent decades widespread rejection of positivism's notorious hostility toward the philosophical tradition has led to renewed debate about the real relationship of philosophy to its history How History Matters to Philosophy takes a fresh look at this debate Current discussion usually starts with the question of whether philosophy's past should matter but Scharff argues that the very existence of the debate itself demonstrates that it already does matter After an introductory review of the recent literature he develops his case in two parts In Part One he shows how history actually matters for even Plato's Socrates Descartes and Comte in spite of their apparent promotion of conspicuously ahistorical Platonic Cartesian and Positivist ideals In Part Two Scharff argues that the real issue is not whether history matters rather it is that we already have a history a very distinctive and unavoidable inheritance which paradoxically teaches us that history's mattering is merely optional Through interpretations of Dilthey Nietzsche and Heidegger he describes what thinking in a historically determinate way actually involves and he considers how to avoid the denial of this condition that our own philosophical inheritance still seems to expect of us In a brief conclusion Scharff explains how this book should be read as part of his own effort to acknowledge this condition rather than deny it

Philosophy and Its History Jorge J. E. Gracia, 1992-01-01 This book is a systematic and comprehensive treatment of issues involved in philosophical historiography It deals with such topics as the relation of philosophy to its history the role of value judgments in historical accounts the

value of the history of philosophy for philosophy the nature and role of texts and their interpretation in the history of philosophy historiographical method and the stages of development of philosophical progress The book defends two main theses The first is that the history of philosophy must be done philosophically that is it must include philosophical judgments The second is that one way to bring a rapprochement between Anglo American and Continental philosophy is through the study of the history of philosophy and its historiography An extensive bibliography of pertinent materials and detailed indexes close the book

Wittgenstein: The Philosopher and his Works Alois Pichler, Simo Säätelä, 2013-05-02 This wide ranging collection of essays contains eighteen original articles by authors representing some of the most important recent work on Wittgenstein It deals with questions pertaining to both the interpretation and application of Wittgenstein's thought and the editing of his works Regarding the latter it also addresses issues concerning scholarly electronic publishing The collection is accompanied by a comprehensive introduction which lays out the content and arguments of each contribution Contributors Knut Erik Tran y Lars Hertzberg Georg Henrik von Wright Marie McGinn Cora Diamond James Conant David G Stern Eike von Savigny P M S Hacker Hans Johann Glock Allan Janik Krist f Ny ri Antonia Soulez Brian McGuinness Anthony Kenny Joachim Schulte Herbert Hrachovec Cameron McEwen

Studies in Philosophy and the History of Philosophy John Kenneth Ryan, 1991

The School of Doubt Orazio Cappello, 2019-03-14 The School of Doubt conducts a close philological and philosophical reading of Cicero's *Academica* a fragmentary work on sense perception and Academic history written in the wake of Caesar's victory in the civil wars 45 BCE Focusing in turn on the author's letters discussing the process of composition the historiographical treatment of the Platonic tradition and the critical exploration of philosophical doubt this volume presents Cicero as an original and sophisticated historian of philosophy and a radical figure in Western skeptical thought Widely misconstrued as a technical treatise and a mere chronicle of the Greek debates on which it draws the *Academica* here emerges as a key work in the evolution of Ciceronian philosophy and of ancient skepticism and one that responds directly to the disintegration of Republican Rome

Reading Kant with Sellars Mahdi Ranaee, Luz Christopher Seiberth, 2024-12-16 This book considers Wilfrid Sellars' engagement with Kantian philosophy both theoretical and practical in his exegetical work in reading Kant as well as in his own systematic development of Kantian philosophy Despite the spate of new publications on Wilfrid Sellars' role in 20th century philosophy a comprehensive book length examination of his interpretation of Kant has been conspicuously absent This volume fills that gap both exegetically and systematically exploring his engagement in four distinct sections 1 Logic and History 2 Sensations and Intuitions 3 Being and Categories and 4 Reason Modality and Freedom The chapters within these sections written by leading experts explore Sellars' reading of Kant and offer both defenses and critiques Readers will find in this collection not only a thorough exploration of Sellars' engagement with Kant but also a rich dialogue between Kant scholars and specialists in Sellars' philosophy *Reading Kant with Sellars* is essential reading for Kant and Sellars scholars offering them deeper insights into their respective fields

by highlighting the importance of Kant for Sellars and the relevance of Sellars reading of Kant for Kant scholarship It will also appeal to scholars and advanced students in philosophy of mind philosophy of language epistemology moral and practical philosophy and logic Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY NC ND 4.0 license The funder for this chapter is Digitales Kant Zentrum NRW Kant and Cognitive Science funded by the Ministry of Culture and Science of the State of North Rhine Westphalia

History of the Philosophy of History Robert Flint, 1893 **A Beginner's History of Philosophy: Ancient and mediaeval philosophy** Herbert Ernest Cushman, 1910 The Philosophical Review Jacob Gould Schurman, James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham, 1919 An international journal of general philosophy
