Improving the Visibility and Use of Digital Repositories Through SEO Kenning Arlitsch,Patrick S.

O'Brien,2013-02-07 Recent OCLC surveys show that less than 2 percent of library users start their search on a library website Another survey of faculty researchers at four major universities showed that most consider Google and Google Scholar amazingly effective for their research Low Google Scholar indexing ratios for library institutional repositories is widespread because it ignores common library metadata and high value content through libraries is consequently invisible to researchers Authors Arlitsch and O'Brien share their expertise in digital libraries and corporate marketing to offer practical steps for search engine optimization such as Recommended dashboards to increase participation by sharing data Avoiding the four most common crawler errors that lead to low rankings How to effectively utilize the Google Keyword Tool How to use domain settings to generate unit specific reports for special collections institutional repositories and university presses Arlitsch spent a year researching search engine optimization and consulting with OCLC on web scale library technologies O'Brien has more than 15 years experience in a corporate setting working in aligning business processes and metrics with sales and marketing strategy

Shaping the Digital Dissertation Virginia Kuhn,Anke Finger,2021-05-04 This volume is a timely intervention that not only helps demystify the idea of a digital dissertation for students and their advisors but will be broadly applicable to the work of librarians administrators and anyone else concerned with the future of graduate study in the humanities and digital scholarly publishing Roxanne Shirazi The City University of New York Digital dissertations have been a part of academic research for years now yet there are still many questions surrounding their processes Are interactive dissertations significantly different from their paper based counterparts What are the effects of digital projects on doctoral education How does one choose and defend a digital dissertation This book explores the wider implications of digital scholarship across institutional geographic and disciplinary divides The volume is arranged in two sections the first written by senior scholars addresses conceptual concerns regarding the direction and assessment of digital dissertations in the broader context of doctoral education The second section consists of case studies by PhD students whose research resulted in a natively digital dissertation that they have successfully defended These early career researchers have been selected to represent a range of disciplines and institutions Despite the profound effect of incorporated digital tools on dissertations the literature concerning them is limited This volume aims to provide a fresh up to date view on the digital dissertation considering the newest technological advances It is especially relevant in the European context where digital dissertations mostly in arts based research are more popular Shaping the Digital Dissertation aims to provide insights precedents and best practices to graduate students doctoral advisors institutional agents and dissertation committees As digital dissertations have a potential impact on the state of research as a whole this edited collection will be a useful resource for the wider academic community and anyone interested in the future of doctoral studies
