

## AFTER “THE BALTIMORE AFFAIR”: James Mark Baldwin’s Life and Work, 1908–1934

James Horley  
Augustana University College

James Mark Baldwin was one of the earliest American practitioners of the “new psychology” and an influential figure in the emergence and establishment of psychology in the United States. He left the United States because of a scandal in Baltimore resulting from his arrest at a “colored” bordello. Baldwin returned only occasionally to North America following his forced resignation from Johns Hopkins University in 1909. Contrary to the few references to his life after leaving Baltimore, Baldwin appears to have initially settled in England. He made numerous extended trips to Mexico and continental Europe, especially France, which eventually became his adopted home. Baldwin’s later life and work in Europe are examined in this article.

James Mark Baldwin (1861–1934) has been typically described as among the “leaders . . . of the ‘new’ psychologists in America” (Boring, 1929/1950, p. 528). After he received his PhD in philosophy from Princeton University in 1887, his rise to the top of his chosen field was rapid. Baldwin was definitely “a young man in a hurry” (Sokal, 1997, p. 60). Although perhaps not a clear writer (Richards, 1987), he was a prolific one. Baldwin published a two-volume handbook of psychology (Baldwin, 1889, 1891) and became a well-known developmental psychologist and evolutionist because of various publications (e.g., Baldwin, 1894/1906a, 1902). He even appears to have been an early contributor to social psychology (House, 1936; Mueller, 1976). Baldwin was also a prolific “founder.” He established the first psychological laboratories at the University of Toronto (1889) and Princeton University (1893), while reopening G. S. Hall’s laboratory at Johns Hopkins University (1904). He was one of the founders of the American Psychological Association, becoming its sixth president in 1897. Baldwin co-founded (1894) and co-owned, with J. M. Cattell, the Psychological Review Company, which included the journal *Psychological Review* (for details of this venture, see Sokal, 1997). In short, his influence on early U.S. psychology was pervasive and profound (Cattell, 1903, 1929; Urban, 1935; Wozniak, 1982).

Baldwin’s fall from the top of his profession was just as abrupt and spectacular as his rise. Despite a reluctance by many historians of psychology to discuss the reasons that led to his departure from Johns Hopkins and the United States (see Boring, 1929/1950), or a tendency to describe it simply as an unnamed
