Calendrier 2005 Rodin:

Architectures contemporaines et monuments historiques Dominique Rouillard, 2006 Ce livre scelle la rencontre de deux cultures la conservation et la création qui agissent l'une sur l'autre malgré l'extrême sectorisation des pratiques des deux c'est se relaient des concepteurs qui vivent la mémoire des monuments en leur assurant un devenir L'acte de conserver un monument historique relève autant de création que le projet d'architecture qui lui est inéluctablement voué se positionner en fonction de l'existant Loin des propos convenus l'auteur Dominique Rouillard reformule la question du rapport entre la conservation et la création en la confrontant à l'histoire de l'architecture mondiale Outre l'essai théorique riche d'illustrations parfois surprenantes le livre offre une seconde section un guide qui répertorie les monuments historiques de France ayant fait l'objet d'une intervention contemporaine depuis 1980

The One and the Many François Déroche, 2022-01-04 A revelatory account of early Islam's great diversity by the world's leading scholar of early Qur'anic manuscripts There is no one better placed than François Déroche to write the history and tell the story of how the Quran went from words uttered by Muhammad to inviolable canonical scripture This is a meticulous lucid and fascinating book Shawkat Toorawa Yale University According to Muslim dogma the recited and written text of the Quran as we know it today scrupulously reflects the divine word as it was originally sent down to Muhammad An examination of early Islamic sources including accounts of prophetic sayings all of them compared with the oldest Qur'anic manuscripts reveal that plurality was in fact the outstanding characteristic of the genesis and transmission of the Quran both textually and orally By piecing together information about alternative wordings eliminated from the canonical version that gradually came to be imposed during the first centuries of Islam François Déroche shows that the Quran long remained open to textual diversity Not only did the faithful initially adopt a flexible attitude toward the Qur'anic text an attitude strikingly at odds with the absolute literalism later enforced by Muslim orthodoxy but Muhammad himself turns out to have been more concerned with the meaning than the letter of the divine message
