

A man and a woman are embracing in a modern living room at night. The woman is on the left, wearing a light-colored sweater and pants, and the man is on the right, wearing a red sweater and dark pants. They are standing in front of a large window that looks out onto a city at night. The room is dimly lit, with a warm glow from a fireplace or heater in the foreground. There are plants and furniture visible in the background.

The Psalms and the Life of Faith Walter Brueggemann, Patrick D. Miller, 1995-09-01 Walter Brueggemann's unique gift of joining historical exegetical insights to penetrating observations about the traumas and joys of contemporary life both personal and social is here forcefully displayed. Everyone who is familiar with his work knows the power of his speech about doxological, polemical, political, subversive, evangelical faith and about the ways such faith is enacted in the praise of ancient Israel and in the church. Readers of this book will find fresh insight into the Psalms as prayer and praise, the categories of the Psalm, the social context in which psalms were prayed and sung, the theology of the Psalm, the dialogical character of the Psalms, justice and injustice in the Psalm, the study and use of the Psalms by the church, praise as an act of basic trust and abandonment, the impossible wonders of God's activity that overturn conventional ways of

The Human Quest for Meaning Paul T. P. Wong, 2013-06-19 The first edition of *The Human Quest for Meaning* was a major publication on the empirical research of meaning in life and its vital role in well-being, resilience, and psychotherapy. This new edition continues that quest and seeks to answer the questions: what is the meaning of life? How do we explain what constitutes meaningful relationships, work, and living? The answers, as the eminent scholars and practitioners who contributed to this text find, are neither simple nor straightforward. While seeking to clarify subjective vs. objective meaning in 21 new and 7 revised chapters, the authors also address the differences in cultural contexts and identify 8 different sources of meaning as well as at least 6 different stages in the process of the search for meaning. They also address different perspectives, including positive psychology, self-determination, integrative narrative, and relational perspectives, to ensure that readers obtain the most thorough information possible. Mental health practitioners will find the numerous meaning-centered interventions, such as the PURE and ABCDE methods, highly useful in their own work with facilitating healing and personal growth in their clients. *The Human Quest for Meaning* represents a bold new vision for the future of meaning-oriented research and applications. No one seeking to truly understand the human condition should be without it.

The Oxford Handbook of Reciprocal Adult Development and Learning Carol Hoare, 2011-09-06 One of the Best Books of 2011 from the Center for Optimal Adult Development. The fields of adult development and the study of learning have traditionally been considered separate, with development falling under psychology and learning under education. However, recent ideas, research, and practices that have emerged in these fields of study effectively emphasize the inherent reciprocal relationship that exists between them.
