An Easy Guide to Help You Find the Perfect Niche Market. Get rich, quick schemes are just that. Schemes. You can't expect to start earning tens of thousands of dollars within a couple of weeks by simply buying an e book that a lot of self proclaimed Internet marketing gurus say will earn you a fortune overnight. Earning your place on the Internet takes time and effort because there are no shortcuts to success and if you want to make it big online, you have to be willing to go through the hardships until you discover your very own gold mine. One of the best moneymaking methods used by many successful individuals is niche marketing and when you have discovered the perfect topic, then you can build a website around it that will either directly sell products, services, or promote them. Niche marketing has made a lot of people rich simply because it offers high conversion rates and thus give you higher returns on your investment. So if you are still trying to figure out what the perfect niche for you would be, then this very simple niche selection guide will be able to help you. The first step is to make a list of at least 5 topics. These topics could be any random things that come out of your head. For example, dog, kitchen, cell phone, bed, and children. Then using a keyword analysis tool, type these words in the search box one at a time. The topics we've chosen above are too broad so we want to be able to break them down into smaller topics and these are what are referred to as niches. With the help of a keyword analysis tool like Google Adwords keyword tool, for example, you will get the following terms for the dog topic: Dog breeds, Dog grooming, Dog supplies, Dog training. These are still quite broad topics to be considered a niche, though if you want to build a big authority website, then it might be all right to go for any of them. However, if you want a more targeted niche, you can continue to dig deeper into each of these topics. So if you are interested in dog training, then do a keyword search on it. You will likely get the following topics: Acoma dog training, Adult dog training, Adult dog potty training, Aggressive dog behavior training. And so on. If you think any of the topics on this list

appeals to you based on factors such as high monthly search volume and low competition then you can proceed to find a list of keywords for this niche that you can create content on You should choose a niche that has a large list of keywords or related keywords so that you can build more content for your site The bigger your site the better When you have chosen your niche the next step is to start building your website and deciding on how you intend to monetize it

Social Niche Marketing Mastery Ritche Rockwell, 2021 Introduction To Niche Markets Through Social Networking Everyone is familiar with the concept of a market where a variety of goods products and services are traded A niche market is simply a subset of the market with a specific product focus aimed at meeting the demands of a particular target group such as the price range product quality and the demographics In fact basically any product that is sold can be put into a specific niche market However because some products are aimed at a general target group because of the focus of the market subset e.g price these are what is commonly known as the mainstream niche or high demand markets Not surprisingly due to globalization and a world view of modern business niche markets have found a very important advantage in the advent of the Internet Internet based niche segments of larger markets can be tapped into by savvy entrepreneurs by the use of technologies to build websites create blogs and other social network based marketing strategies This allows the niche marketer to rapidly gain access and exposure thereby better targeting their customer base to build loyalty and in turn a steady and passive income stream The reproducibility of niche marketing allows the technique to be repeated across several other niche websites depending on the target income level one would like to generate As many niches become saturated with marketers and the market share is divided amongst increasingly more competitors it is important to find smaller and new undiscovered niches Therefore unlike traditional business niche marketers also need to constantly evolve and adapt their business to the supply and demands of the current market With the advent of social networking sites like Facebook and Twitter researching niche markets that will practically buy everything you can throw at them has never been easier This guide will provide useful information for those who are interested in learning more about this cutting edge market and beginning a potentially lucrative career in niche marketing Throughout this book you will learn about many of the benefits of niche marketing and

how you can successfully start your own niche marketing business Understanding the pros and cons of niche marketing can make going into it much easier and less stressful because you know what to expect before you even get started for the most part
