The Guide to the Perplexed Moses Maimonides, 2024-05-28 A landmark new translation of the most significant text in medieval Jewish thought Written in Arabic and completed around 1190 the Guide to the Perplexed is among the most powerful and influential living texts in Jewish philosophy a masterwork navigating the straits between religion and science logic and revelation The author Rabbi Moses ben Maimon commonly known as Maimonides or as Rambam was a Sephardi Jewish philosopher jurist and physician He wrote his Guide in the form of a letter to a disciple But the perplexity it aimed to cure might strike anyone who sought to square logic mathematics and the sciences with biblical and rabbinic traditions In this new translation by philosopher Lenn E Goodman and historian Phillip I Lieberman Maimonides warm conversational voice and clear explanatory language come through as never before in English Maimonides knew well the challenges facing serious inquirers at the confluence of the two great streams of thought and learning that Arabic writers labeled aql and naql reason and tradition The aim of the Guide he wrote is to probe the mysteries of physics and metaphysics But mysteries to Maimonides were not conundrums to be celebrated for their obscurity They were problems to be solved Maimonides methods and insights resonate throughout the work of later Jewish thinkers rationalists and mystics and in the work of philosophers like Thomas Aquinas Spinoza Leibniz and Newton The Guide continues to inspire inquiry discovery and vigorous debate among philosophers theologians and lay readers today Goodman and Lieberman s extensive and detailed commentary provides readers with historical context and philosophical enlightenment giving generous access to the nuances complexities and profundities of what is widely agreed to be the most significant textual monument of medieval Jewish thought a work that still offers a key to those who hope to harmonize religious commitments and scientific understanding

1 and 2 Peter Robert Leighton, Griffith Thomas, 1999-04-01 Original works by godly writers tailored for the understanding of today s reader For hundreds of years Christendom has been blessed with Bible commentaries written by great men of God who were highly respected for their godly walk and their insight into spiritual truth The Crossway Classic

Commentary Series carefully adapted for maximum understanding and usefulness presents the very best work on individual Bible books for today's believers Addressed to persecuted believers Peter's first letter encourages them with the knowledge that it is possible to live victoriously in the midst of hostility just as Christ who suffered unjustly did He exhorts them to live a holy life that they might be a witness and evangelize the world through their faithfulness In his second epistle Peter warns against the more subtle dangers from within the church false teachers and errant doctrine He also emphasizes the importance of scriptural knowledge for only in understanding true doctrine will heresies be known and immoral behavior be exposed Robert Leighton and Griffith Thomas's exploration of 1 and 2 Peter's key passages offers resounding wisdom that will both instruct and encourage all Christians

The Commentaries of Origen and Jerome on St. Paul's Epistle to the Ephesians Ronald E. Heine, 2002-12-05 This important study provides the first English translation of both the surviving fragments of Origen's Commentary on Ephesians and of the complete text of Jerome's Commentary on Ephesians The two translations are placed parallel to one another where they treat the same texts in Ephesians thus showing Jerome's extensive dependence on Origen's commentary By using collateral texts from other works of Origen Jerome and Rufinus the author is able to show Jerome's dependence on Origen in numerous passages in his commentary where the Greek text of Origen's commentary is lost The translation is accompanied by Heine's illuminating commentary and a substantial introduction sets the works in their historical context The book makes a significant contribution not only to scholarship on Origen and Jerome but also to the wider question of the interpretation of scripture in the early Christian centuries

Milton's Ontology, Cosmogony, and Physics Walter Clyde Curry, 2014-07-15 Walter Clyde Curry a well known student of Milton analyzes the origins and unique construction of the grand stage upon which Milton presents the drama of human destiny in Paradise Lost Through close examination of four entities Heaven of Heavens Hell chaos and the World a greatly expanded view is provided of the poet's concept of space and God's relation to total creation In facing structural and philosophical problems Milton is shown to be neither a materialist nor an eclectic nor a pantheist as many scholars have insisted he emerges rather as a master syncretist of widely divergent materials and as a devout theopantist Curry has established a firm basis for a better understanding of the poet's methodology and for a clearer insight into his artistic accomplishments

The Tao of Islam Sachiko Murata, 1992-03-23 The Tao of Islam is a rich and diverse anthology of Islamic teachings on the nature of the relationships between God and the world the world and the human being and the human being and God Focusing on gender symbolism Sachiko Murata shows that Muslim authors frequently analyze the divine reality and its connections with the cosmic and

human domains with a view toward a complementarity or polarity of principles that is analogous to the Chinese idea of yin yang Murata believes that the unity of Islamic thought is found not so much in the ideas discussed as in the types of relationships that are set up among realities She pays particular attention to the views of various figures commonly known as Sufis and philosophers since they approach these topics with a flexibility and subtlety not found in other schools of thought She translates several hundred pages most for the first time from more than thirty important Muslims including the Ikhwan al Safa Avicenna and Ibn al Arabi
