Calvary Revisited Ed Volpe,2010-02 Calvary Revisited is a novel about the man who crucified Jesus who became the Commander of the Western Armies and a Senator of Rome who befriended Paul and was falsely imprisoned by Nero who spied on Jesus for Herod and had his servant healed by Jesus who witnessed Jesus miracles who preserved the manuscripts of the New Testament He was also a man like many today who could not forgive himself for the sins of his youth He limped through life knowing there had to be more even as he reveled in the accolades of men He searched the desert of life to discover the living water but was left dry wanton and weary that is until he formed a relationship with the Son of God Experience how God through His infinite patience and grace worked in the life of this man enlisting him into His ranks as a centurion for His glory

War and Combat, 1150-1270 Catherine Hanley,2003 An investigation of the depiction of warfare in contemporary writings in both fictional narratives and factual accounts War and combat were significant factors in the lives of all conditions of people during the twelfth and thirteenth centuries thousands of men women and children prepared for engaged in and suffered from the consequences of almost endemic armed conflict However while war and combat feature prominently in many of the forms of literature written at the time the theme of warfare in some types of narrative source remains a relatively under studied area This book offers an investigation of the depiction of warfare in contemporary writings in both fictional narratives and factual accounts aiming to bridge the gap between the disciplines of literature and military

history Using both established sources and the latest research the author examines how the application of what is now known about the practical and technological aspects of medieval warfare can aid us in our understanding of literature She also demonstrates via an investigation of a corpus of Old French chronicles epics and romances how the judicious study of sources that are not always considered reliable can in turn inform us about contemporary perceptions of and attitudes towards war and other forms of armed combat Dr Catherine Hanley was formerly a Research Associate in the Department of French at the University of Sheffield she is now a freelance editor and historical novelist

Echoing Hooves: Studies on Horses and Their Effects on Medieval Societies, 2022-07-04 Saying that horses shaped the medieval world and the way we see it today is hardly an exaggeration Why else do we imagine a medieval knight or a nomadic warrior on horseback Why do we use such metaphors as unbridled or bearing a yoke in our daily language Studies of medieval horses and horsemanship are increasingly popular but they often focus on a single aspect of equestrianism or a single culture In this book you will find information about both elite and humble working equines about the ideology and practicalities of medieval horsemanship across different countries from Iceland to China Contributors are Gloria Allaire Luise Borek Gail Brownrigg Agn's Carayon Gavina Cherchi John C Ford Lo's Forster J rg Gassmann Rebecca Henderson Anna Lena Lange Romain Lefebvre Rena Maguire Ana Maria S A Rodrigues and Alexia Foteini Stamouli

Journal of Medieval Military History: Volume XXI Kelly DeVries, Clifford J. Rogers, John France, 2023-06-06 The leading academic vehicle for scholarly publication in the field of medieval warfare Medieval Warfare The twenty first volume of the Journal of Medieval Military History begins with three studies examining aspects of warfare in the Latin East an archaeological report on the defenses of Jerusalem by Shimon Gibson and Rafael Y Lewis a study of how military victories and defeats viewed through the lens of carefully shaped reporting affected the reputation and the flow of funds and recruits to the Military Orders by Nicolas Morton and an exploration of how the Kingdom of Jerusalem quickly recovered its military strength after the disaster of Hattin by Stephen Donnachie Turning to the other side of the Mediterranean Donald J Kagay analyzes how Jaime I of Aragon

worked to control violence within his realms by limiting both castle construction and the use of mechanical artillery Guilhem P pin also addresses the limitation of violence using new documents to show that the Black Prince s sack of Limoges in 1370 was not the unrestrained bloodbath described by Froissart The remaining three contributions deal with aspects of open battle Michael John Harbinson offers a large scale study of when and why late medieval men at arms chose to dismount and fight on foot instead of acting tactically as cavalry Laurence W Marvin reconsiders the Battle of Bouvines concluding that it was far from being a ritualized mass duel Finally Michael Livingston elucidates some principles for understanding medieval battles in general and the battle of Agincourt in particular
