A Question Of Competence:

The Question of Competence Brian D. Hodges, Lorelei Lingard, 2012-10-16 Medical competence is a hot topic surrounded by much controversy about how to define competency how to teach it and how to measure it While some debate the pros and cons of competence based medical education and others explain how to achieve various competencies the authors of the seven chapters in *The Question of Competence* offer something very different They critique the very notion of competence itself and attend to how it has shaped what we pay attention to and what we ignore in the education and assessment of medical trainees Two leading figures in the field of medical education Brian D Hodges and Lorelei Lingard draw together colleagues from the United States Canada and the Netherlands to explore competency from different perspectives in order to spark thoughtful discussion and debate on the subject The critical analyses included in the book s chapters cover the role of emotion the implications of teamwork interprofessional frameworks the construction of expertise new directions for assessment models of self regulation and the concept of mindful practice The authors juxtapose the idea of competence with other highly valued ideas in medical education such as emotion cognition and teamwork drawing new insights about their intersections and implications for one another *A Question of Competence Language, Intelligence, and Learning to Read* J. Fishbein, Robert Emans, 1972 *The Competences of Supreme Courts* Council of Europe, Estonia. Riigikohus, 1998-01-01 Proceedings The meeting was also known as the Conference of Chairmen of Higher Courts of Central Eastern Europe **Law and Administration in Europe** Paul P. Craig, Richard Rawlings, 2003 The contributions to this volume address central issues in public law There are chapters dealing with the general theoretical foundations of public law including the relationship of theory and values and discussion of the central idea of representation The nature of the public private divide continues to be of importance as a result of changes in the nature of government and as a consequence of the passage of the Human Rights Act 1998 HRA Closely related to this is the contractualisation of government The relationship between the courts Parliament and the executive has always been a central concern for public lawyers It has been brought to the fore by the passage of the HRA leading to discussions about the extent to which the courts should show deference to executive and legislative choices when engaging in judicial review This vexed issue is especially apparent when it comes to deciding how Parliament the executive and the courts should treat non citizens or those who might threaten the security of the state It is of course impossible to discuss public law without considering European Union law There is discussion of core issues relating to the legitimacy of the EU and its constitutional foundations The role of courts in the process of integration is analysed and the desirability of judicial review over rule making is considered The relationship between public and private modes of enforcing EU law is reviewed In addition there is a discussion of the way in which different levels of government inter relate viewed through the lens of devolution in the UK **Official Bulletin** International Labour Office, 1922 Vol 1 Apr 1919 Aug 1920 published 1923 is a collection of documents relating to the history and activities of the International Labor
