The Consciousness of D.H. Lawrence Daniel J. Schneider, 1986 This biography of Lawrence is unlike any other in its focus on the essential character of the artist and in its synthesis of the facts of his life and thought It is written not for specialists but for general readers who wish to deepen their understanding of the development of Lawrence's thought and feeling over the course of his lifetime The author blends intellectual biography and psychology to focus on

Lawrence's religious nature as a shaping force in his life *The Oxford English Literary History: Volume 10: 1910-1940: The Modern Movement* Chris Baldick, 2005-11-10 This exciting new volume provides a freshly inclusive account of literature in England in the period before, during and after the First World War. Chris Baldick places the modernist achievements of Virginia Woolf, T.S. Eliot and James Joyce within the rich context of non-modernist writings across all major genres, allowing high literary art to be read against the background of low entertainment. Looking well beyond the modernist vanguard, Baldick highlights the survival and renewal of realist traditions in these decades of post-Victorian disillusionment. Ranging widely across psychological novels, war poems, detective stories, satires and children's books, *The Modern Movement* provides a unique survey of the literature of this turbulent time.

Modernism and Democracy Rachel Potter, 2006-07-20 Anglo-American modernist writing and modern mass democratic states emerged at the same time during the period of 1900-1930. Yet writers such as T.S. Eliot, W.B. Yeats, Ezra Pound, Wyndham Lewis and Ford Madox Ford were notoriously hostile to modern democracies. They often defended, in contrast, anti-democratic forms of cultural authority. Since the late 1970s, however, our understanding of modernist culture has altered, as previously marginalised writers, in particular women such as Gertrude Stein, Djuna Barnes, H.D. and Mina Loy, have been reassessed. Not only has the picture of Anglo-American modernist culture changed significantly, but the understanding of the relationship between modernist writing and politics has also shifted. Rachel Potter here reassesses the relationship between modernism and democracy by analysing the wide range of different reactions by modernist writers to the new democracies. She charts the changes in the ideas of democracy as a result of the shift from liberal to mass democracies after the First World War and of women's entrance into the political and cultural spheres. By uncovering hitherto unanalysed essays by a number of feminist writers, she argues that in fact there was a widespread scepticism about the consequences of mass democracy for women's liberation and that this scepticism was central to the work of women modernist writers.

Reading, writing and the influence of Harold Bloom Alan Rawes, Jonathon Shears, 2024-07-30 Reading, writing and the influence of Harold Bloom takes the work of the world's best known living literary critic and discovers what it is like to read with, against and beyond his ideas. The editors, Alan Rawes and Jonathon Shears, introduce the collection by assessing the impact of Bloom's brand of agonistic criticism on literary critics and its ongoing relevance to a discipline attempting to redefine and settle on its collective goals. Firmly grounded in, though not confined to, Bloom's first specialism of Romantic Studies, the volume contains essays that examine Bloom's debts to high Romanticism, his quarrels with feminism, his resistance to historicism, the tensions with the Yale School and his recent work on Shakespeare and genius. Crucially, chapters are also devoted to putting Bloom's anxiety-themed ratios into practice on the poetry of Wordsworth, Shelley, Keats and D.H. Lawrence, amongst others. The Harold Bloom that emerges from this collection is, by turns, divisive and unifying, marginalised and central, radical and conservative.

Chris Baldick,2004 A major new survey of literature in England during the first half of the twentieth century Chris Baldick places modernist with non modernist writings high art with low entertainment The Modern Movement ranges broadly covering psychological novels war poems detective stories satires children s books and other literary forms evolving in response to the new anxieties and exhilarations of twentieth century life **The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950** George Watson,I. R. Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Deleuze and Religion** Mary Bryden,2002-01-04 Despite the ever expanding body of Deleuzian scholarship single volume has explored the religious dimensions of Delueze s writing Now Mary Bryden has assembled a team of international scholars to do just that Their essays illustrate the ways in which Deleuzian thought is antithetical to religious debate as well as the ways in which it contributes to those debates This volume will be invaluable for researchers teachers and students of theology philosophy critical theory cultural studies and literary criticism as well as to students of French who read Deleuze s work in its original language D. H. Lawrence; a Critical Anthology H. Coombes,1973 *The Indispensable D. H. Lawrence* David Herbert Lawrence,1951 **The Bookman** ,1930 *Ireland, Revolution, and the English Modernist Imagination* Eve Patten,2022-06-23 This book asks how English authors of the early to mid twentieth century responded to the nationalist revolution in neighbouring Ireland in their work and explores this response as an expression of anxieties about and aspirations within England itself Drawing predominantly on novels of this period but also on letters travelogues literary criticism and memoir it illustrates how Irish affairs provided a marginal but pervasive point of reference for a wide range of canonical authors in England including Wyndham Lewis Virginia Woolf D H Lawrence Graham Greene and Evelyn Waugh and also for many lesser known figures such as Ethel Mannin George Thomson and T H White The book surveys these and other incidental writers within the broad framework of literary modernism an arc seen to run in temporal parallel to Ireland s revolutionary trajectory from rebellion to independence In this context it addresses two distinct aspects of the Irish English relationship as it features in the literature of the time first the uneasy recognition of a fundamental similarity between the two countries in terms of their potential for violent revolutionary instability and second

the proleptic engagement of Irish events to prefigure imaginatively the potential course of England's evolution from the Armistice to the Second World War Tracing these effects this book offers a topical renegotiation of the connections between Irish and English literary culture nationalism and political ideology together with a new perspective on the Irish sources engaged by English literary modernism
