

PREFACE

Written in 1936, five years before the war he predicted to the year (see page 46) for the purely economic and monetary reasons he alone advanced, *The Coming American Fascism* was Lawrence Dennis' second attempt to explain the real nature of capitalism.

Dennis was born in Atlanta in 1893, descended from a long line of American ancestors. He was educated in part by tutors in Europe. Returning to the U.S. he began studies at Phillips Exeter college. As a patriotic and idealistic young man of 22, a year after hostilities broke out in Europe, dutifully determined to smash the Hun, make the world safe for democracy and help fight a war to end all wars, he volunteered in the Army and was trained at the first volunteer officer's training camp at Plattsburg, N.Y. in 1915. After American intervention in the European war produced the first world war in 1917, he served as an infantry officer in France.

After graduating from Harvard in 1920 he went to work for the State Department, serving as *chargé d'affaires* in Rumania, Haiti, Honduras and Nicaragua for a decade. Subsequently, he went to work on Wall Street. Working for international banking firms he "had first hand opportunity to study the workings of dollar diplomacy from the inside," as he put it.

Dennis' first book, *Is Capitalism Doomed?*, appeared in 1932. Dozens of articles authored by him were published in magazines during this period.

Looking back today, after the collapse of Marxism-Leninism as a practical formula of government, it may seem that the central thesis of this book—namely, that Americans had the choice of adopting either communism or fascism because capitalism could not be sustained longer—was laughably naive.

However, the seminal thinking of Lawrence Dennis is not that easily contained. Rejected by both antipodes of political-economic thought: Marxist and capitalist, Dennis has been

A Preface To Lawrence Introduction

In today's digital age, the availability of A Preface To Lawrence books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of A Preface To Lawrence books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of A Preface To Lawrence books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing A Preface To Lawrence versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, A Preface To Lawrence books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing A Preface To Lawrence books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for A Preface To Lawrence books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated

to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, A Preface To Lawrence books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of A Preface To Lawrence books and manuals for download and embark on your journey of knowledge?
