Handbook on Smart Growth Knaap, Gerrit-Jan, Lewis, Rebecca, Chakraborty, Arnab, June-Friesen, Katy, 2022-07-08 This timely Research Handbook examines the evolution of smart growth over the past three decades mapping the trajectory from its original principles to its position as an important paradigm in urban planning today Critically analysing the original concept of smart growth and how it has been embedded in state and local plans contributions from top scholars in the field illustrate what smart growth has accomplished since its conception as well as to what extent it has achieved its goals

Keynes, Chicago and Friedman, Volume 2 Robert Leeson, Milton Friedman, 2024-11-15 These two volumes present essays on the subdiscipline of Chicago Monetarism in economics Some of the issues under dispute can be regarded as resolved while others are still being debated The contributors include Friedman Patinkin Harry Johnson and James Tobin

Megapolitan America Arthur Nelson, Robert Lang, 2018-02-06 With an expected population of 400 million by 2040 America is morphing into an economic system composed of twenty three megapolitan areas that will dominate the nation s economy by midcentury These megapolitan areas are networks of metropolitan areas sharing common economic landscape social and cultural characteristics The rise of megapolitan areas will change how America plans For instance in an area comparable in size to France and the low countries of the Netherlands and Belgium considered among the world s most densely settled America s megapolitan areas are already home to more than two and a half times as many people Indeed with only eighteen percent of the contiguous forty eight states land base America s megapolitan areas are more densely settled than Europe as a whole or the United Kingdom Megapolitan America goes into spectacular demographic economic and social detail in mapping the dramatic and surprisingly optimistic shifts ahead It will be required reading for those interested in America s future

Better By Design? Paul L. Knox, 2020-10-09 The design professions architecture city planning landscape architecture and urban design share a great deal in terms of intellectual antecedents professional ideals and praxis In particular they share a commitment to creating better cities whether at the scale of buildings neighborhoods or city regions But who decides what constitutes a good city and how should such an ideal be implemented In *Better by Design* Paul Knox explores the intellectual roots of the design professions showing how architects planners and other designers have traditionally interpreted their roles and implemented their ideas in cities across North America and the UK Drawing on his long record of research and award winning publications on the social production of the built environment Knox offers a critical appraisal of their ultimate effectiveness in achieving the goal of creating and sustaining good cities
