the 20th century the breed's popularity grew. In 1966 the American Shorthair was formally acknowledged as a breed by the Cat Fanciers Association (CFA). The cat's unique characteristics and heritage were taken into consideration when renaming it. Families loved this breed because of its well-known for being kind and versatile. Features: Round faces, medium to big sizes, muscular builds, and short dense coats are characteristics of American Shorthairs. They are available in an extensive range of hues and designs. They are popular as pets because of their amiable and laid-back dispositions. Current Situation: The American Shorthair cat breed is still among the most well-liked in the country today. It is prized for its exceptional health, adaptability, and pleasant temperament, in addition to its historical value. The breed is still popular among families looking for a loving, low-maintenance companion and is still shown in cat shows. The history of the American Shorthair breed illustrates how it developed from a useful working cat during colonial times to a beloved and highly esteemed breed in modern pet society.

American Shorthair Cats Karen Leigh Davis, 1999. The most extensive line of basic pet information and training guides on the market. Complete Pet Owner's Manuals are written by experts and profusely illustrated with full-color photos and instructive high-quality line art. These books are written in clear, direct language that will appeal to ordinary cat owners, but they also contain information that even experienced breeders and trainers will find enlightening. Each manual has been individually written by an experienced breeder, veterinarian, or qualified expert. Individual titles focus on many of the most popular cat breeds, as well as that favorite, the common house cat.

Medical, Genetic & Behavioral Risk Factors of American Shorthair Cats Ross D. Clark DVM, 2017-01-11. Although this native cat has been around for centuries, probably aboard with the pilgrims on the Mayflower, it was not recognized until the early 1900s. This cat could be found on farms near barns or in the house performing its duties as a pest controller. Due to the harsh living conditions, this working cat was exposed to and developed into a powerful, tough breed. In 1900 or 1901, the first short-haired cat was registered. However, it was actually a red tabby British shorthair called Belie. Finally, in 1904, a male smoke named Buster Brown was registered and recognized as the first member of American heritage. Through good breeding programs, the American shorthair gradually became established and separated from its European cousins. Progress was visible by the 1930s and 1940s, and by 1950, the CFA printed a stud book listing fifty domestic shorthairs. Prior to 1966, this breed was known as the Domestic shorthair, a title that is still commonly used. The American shorthair is the sixth most popular breed registered by the CFA based on 2014 registrations. Nonpedigree American shorthairs, referred to as Domestic, were considered foundation stock and were accepted by the CFA until January of 1985. Since many alley cats may look like purebred American shorthairs, breeders are continually having to display the differences between their purebred animals and those of a combination of various matings. The actual proof of a purebred American shorthair is that it will produce a uniform litter of kittens which are all the same type.
