Wernert, 1982 Identifies and describes many varieties of mammals birds reptiles fish trees and wildflowers found in North America **American Game**, 1926
American Illustrated Magazine, 1929 American Phrenological Journal and Life Illustrated, 1872 Country Life, 1903 **Reader's Digest North American Wildlife** Reader's digest, 2012 This volume is an illustrated guide to 2 000 plants and animals Every species is presented in full color this reference contains thousands of identification capsules range maps and habitat symbols and a special 32 page guide to wildlife communities Spanning the land from Florida to Alaska it embraces field forest pond prairie all the natural communities that make our North American flora and fauna so splendidly diverse **Our Vanishing Wild Life** William Temple Hornaday, 1913 William Temple Hornaday was the Director of the New York Zoological Society and the nation's leading advocate of wildlife conservation in this era This unsparing manifesto was written to accompany Hornaday's launching of the Permanent Wildlife Protection Fund it is thus in the words of the historian Stephen Fox both a campaign tract and one of the first books wholly devoted to endangered wild animals John Muir and His Legacy The American Conservation Movement Boston Little Brown and Company 1981 p 149 It is also a landmark of conservation history which had a profound effect on the thought of Aldo Leopold among others The book surveys the history and causes of wildlife destruction in America and elsewhere and sets forth a lengthy program to ensure the protection of remaining wildlife for the future often in militant and moralistic terms The work also throws light on some of the complexities inherent in the conservation movement at this time for example Hornaday accepts the classification of certain bird and mammalian predators as noxious or vermin and appropriate for destruction pp 77 81 there is no criticism here of the massive campaign for the extermination of wolves and coyotes being sponsored at the time by the Bureau of Biological Survey On a more general level Hornaday's fulminations against Italian immigrants as incorrigible bird killers suggest a connection

between nativism and conservationism while his excoriations of market hunters set forth a deeply rooted class bias shared by many leading conservationists
