Americas Crime Problem An Introduction To Criminology:

America's "crime Problem" Joseph F. Sheley, 1985 **Introduction to Criminology** Pamela J. Schram, Stephen G. Tibbetts, 2017-02-13 Introduction to Criminology Why Do They Do It Second Edition by Pamela J Schram Stephen G Tibbetts offers a contemporary and integrated discussion of the key theories that help us understand crime in the 21st century With a focus on why offenders commit crimes this bestseller skillfully engages students with real world cases and examples to help students explore the fundamentals of criminology To better align with how instructors actually teach this course coverage of violent and property crimes has been integrated into the theory chapters so students can clearly understand the application of theory to criminal behavior Unlike other introductory criminology textbooks the Second Edition discusses issues of diversity in each chapter and covers many contemporary topics that are not well represented in other texts such as feminist criminology cybercrime hate crimes white collar crime homeland security and identity theft Transnational comparisons regarding crime rates and the methods other countries use to deal with crime make this edition the most universal to date and a perfect companion for those wanting to learn about criminology in context **Criminological Theory** Werner J. Einstadter, Stuart Henry, 2006-06-22 Criminological Theory is an examination of the major theoretical perspectives in criminology today Werner J Einstadter and Stuart Henry lay bare various theorists ideas about human nature social structure social order concepts of law crime and criminals the logic of crime causation and the policies and practices that follow from these premises Material is presented and organized around these analytic and critical dimensions throughout the text Criminological Theory provides students with a clear overview of the subject that enables informed comparisons among diverse concepts Abstract concepts are explained clearly to maximize the significance of each theoretical framework The authors cover the major literature in an engaging comprehensive and accessible way allowing students to develop a critical understanding of foundational and contemporary ideas in Criminology Woman Abuse in Rural Places Walter S. DeKeseredy, 2020-11-29 This book chronicles key contemporary developments in the social scientific study of various types of male to female abuse in rural places and suggests new directions in research theory and policy The main objective of this book is not to simply provide a dry recitation of the extant literature on the abuse of rural women in private places To be sure this material is covered but rural women s experiences of crimes of the powerful like genocidal rape and corporate violence against female employees are also examined Written by a celebrated expert on the subject this book considers woman abuse in a broad context covering forms of violence such as physical and sexual assault coercive control genocidal rape abortion bans forced pregnancy and corporate forms of violence It offers a broad research agenda that examines the multidimensional nature of violence against rural women Drawing on decades of work in the shelter movement with activist organizations and doing government research DeKeseredy punctuates the book with stories and voices of perpetrators and survivors of abuse Additionally what makes this book unique is that it focuses on the plight of rural women around the world and it introduces a

modified version of Liz Kelly's original continuum of sexual violence. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, women's studies, cultural studies, policing, geography, and all those interested in learning about the abuse women face in rural areas. Walter S. DeKeseredy is Anna Deane Carlson Endowed Chair of Social Sciences, Director of the Research Center on Violence, and Professor of Sociology at West Virginia University. Nagel, 1989-02-16 The purpose of this book is to bring together a number of ideas that relate to the analysis of public policy issues for the presidential campaigns of 1988. These issues are also relevant to 1992 and thereafter since the emphasis is on long term concerns. The book is organized in terms of the need for higher goals for America: incentives for achieving higher goals, improving American constitutional effectiveness, coordinating the public and private sectors, and public policy substance methods. Beginning with goals on a high level of generality or applicability, the author then discusses middle range means for achieving them with an emphasis on economic incentives, political structures, and legal rules. Specific policy problems and systematic methods for analyzing them are also included. One important feature of this book is that it is concerned with issues relevant to the presidential campaigns of Democrats and Republicans or liberals and conservatives within the political parties. Contains charts and tables.

Murder, at the End of the Day and Night Ronald Barri Flowers, 2002 *Law and Society* Steven Vago, 1991 This highly readable and comprehensive book offers a balanced, current, and comprehensive overview of the legal system and administrative criminal and civil law in a cross-cultural context. It considers the most recent theories and research findings and emphasizes developing and emerging trends. It focuses on the evolution of modern legal systems, current intellectual movements in law, interplay between law and social change, and the main concerns and issues in the profession and practice of law. This is the only book that considers multicultural and cross-cultural issues in a contemporary context with an interdisciplinary emphasis. For individuals interested in the law, criminal justice, and political science.

Journal of the American Institute of Criminal Law and Criminology, 1928 **Moral Controversies in American Politics** Raymond Tatalovich, Byron W. Daynes, 1998 No area of public policymaking is more hotly debated than the use of governmental authority to institute certain enforceable standards.

of behavior in areas that have been the subject of moral controversy. Such issues as abortion for example are debated not on grounds of economic calculus but rather the moral and normative concerns of citizens and typically evoke a reversal of the liberal conservative division of views on the appropriateness of government interventionism. In Theodore Lowi's words the politics of such issues is more ideological, more moral, more directly derived from fundamental values, more intense, less utilitarian, more polarized and less prone to compromise. This volume examines eight social regulatory policy issues: abortion, pornography, death penalty, gun control, affirmative action, church-state separation, official English, and gay rights. Each case study examines the relevant issues and arguments, policy shifts over time, the roles of key political and institutional actors including lobbies and interest groups, public opinion, the bureaucracy, the president, Congress, the judiciary, and state and local authorities.

Voices from the Field Carl E. Pope, Rickie Dwaine Lovell, Steven Gerard Brandl, 2001. This reader organized by type of methodology: experimental, survey, and field research; analysis of records and secondary data; analysis of case studies and commentary about research design; varying research approaches; the process of measurement and the concepts of reliability and validity. The book includes 20 articles drawn from major scholarly journals, each accompanied by a Commentaries section written by the original author. The commentaries provide a behind-the-scenes perspective, discussions of why a particular methodology was chosen, problems that occurred, and how the research results differed from expectations. Each article also has an original introduction and conclusion section meant to help readers understand the nature, issues, and conduct of the study.
