Americas Toprated Cities 2003 10th Pb 2003:

Civil Society and the State in Left-Led Latin America Barry Cannon, Professor Peadar Kirby, 2012-10-11 Timely and unique this innovative volume provides a critical examination of the role of civil society and its relation to the state throughout left led Latin America Featuring a broad range of case studies from across the region from the Bolivian Constitution to participative budgeting in Brazil to the communal councils in Venezuela the book examines to what extent these new initiatives are redefining state civil society relations Does the return of an active state in Latin America imply the incorporation of civil society representatives in decision making processes Is the new left delivering on the promise of participatory democracy and a redefinition of citizenship or are we witnessing a new democratic deficit A wide ranging analysis of a vital issue both for Latin America and beyond **America's Top Rated Cities**, 1992 Forthcoming Books

Rose Army, 2003 **Restorative Cities** Jenny Roe, Layla McCay, 2021-07-15 Overcrowding noise and air pollution long commutes and lack of daylight can take a huge toll on the mental well being of city dwellers With mental healthcare services under increasing pressure could a better approach to urban design and planning provide a solution The restrictions faced by city residents around the world during the COVID 19 pandemic has brought home just how much urban design can affect our mental health and created an imperative to seize this opportunity Restorative Cities explores a new way of designing cities one which places mental health and wellness at the forefront Establishing a blueprint for urban design for mental health it examines a range of strategies from sensory architecture to place making for creativity and community and brings a genuinely evidence based approach that will appeal to designers and planners health practitioners and researchers alike and provide compelling insights for anyone who cares about how our surroundings affect us Written by a psychiatrist and public health specialist and an environmental psychologist with extensive experience of architectural practice this much needed work will prompt debate and inspire built environment students and professionals to think more about the positive potential of their designs for mental well being **Participatory Budgeting in Global Perspective** Brian Wampler, Stephanie McNulty, Stephanie L. McNulty, Michael Touchton, 2021 Participatory Budgeting continues to spread across the globe as government officials and citizens adopt this innovative democratic program in the hopes of strengthening accountability civil society and well being Governments often adapt PB s basic program design to meet local needs thus creating wide variation in how PB programs function Some programs retain features of radical democracy others focus on community mobilization and yet other programs seek to promote participatory development Participatory Budgeting in Global Perspective provides a theoretical and empirical explanation to account for widespread variation in PB s adoption adaptation and impacts This book develops six PB types to account for the wide variation in how PB programs function as well as the outcomes they produce To illustrate the similar patterns across the globe four empirical chapters present a rich set of case studies that illuminate the wide differences among these programs chapters are organized regionally with chapters on Latin America Asia Sub Saharan

Africa Europe and North America By organizing the chapters regionally it becomes clear that there are temporal spatial economic and organizational factors that produce different programs across regions but similar programs within each region A key empirical finding is that the change in PB rules and design is now leading to significant differences in the outcomes these programs produce We find that some programs successfully promote accountability expand civil society and improve well being but too often researchers do not have any evidence tying PB to significant social or political change

Deepening Local Democracy in Latin America Benjamin Goldfrank,2011-03-04 The resurgence of the Left in Latin America over the past decade has been so notable that it has been called the Pink Tide In recent years regimes with leftist leaders have risen to power in Argentina Bolivia Brazil Chile Ecuador El Salvador Nicaragua Uruguay and Venezuela What does this trend portend for the deepening of democracy in the region Benjamin Goldfrank has been studying the development of participatory democracy in Latin America for many years and this book represents the culmination of his empirical investigations in Brazil Uruguay and Venezuela In order to understand why participatory democracy has succeeded better in some countries than in others he examines the efforts in urban areas that have been undertaken in the cities of Porto Alegre Montevideo and Caracas His findings suggest that success is related most crucially to how nationally centralized political authority is and how strongly institutionalized the opposition parties are in the local arenas

America's Top-Rated Cities Grey House Publishing,2003-04 America s Top Rated Cities provides current comprehensive statistical information and other essential data in one easy to use source on the 100 top cities that have been cited as the best for business and living in the U S This Four Volume Set incorporates information from hundreds of sources such as magazine rankings Federal state and local statistics and web sites to show at a glance a concise social business economic demographic and environmental profile of each city including evaluative comments The city reports are designed for a wide range of readers private individuals considering relocating a residence or business professionals considering expanding their business or changing careers government agencies general and market researchers real estate consultants human resource planners urban planners and investors
