## **American Reich:**

**American Reich** Eric Lichtblau, 2026-01-06 From the Pulitzer winning author of the New York Times bestseller *The Nazis Next Door* A deeply reported exploration of the violent resurgence of hatred and white supremacy through the lens of Orange County California ground zero for racial extremism and the story of one brutal murder there that revealed the deep roots of violent bigotry as a bellwether for the country One night in early 2018 while he was home from college an Ivy League student named Blaze Bernstein snuck out of his parents house in Orange County Waiting for him in a car outside was an old high school classmate Sam Woodward someone who Blaze mostly remembered as a brooding bigoted loner But that night after months of flirtatious messaging Sam had succeeded in coaxing Blaze a gay Jewish sophomore at UPenn out for a rendezvous No one would ever see him alive again In *American Reich* veteran investigative journalist Eric Lichtblau uses the story of Blaze s life and death to shine a light on the epidemic of hate in Southern California and increasingly the nation as a whole Orange County has long been a bastion of the ultra right carved out of farmland as a haven for wealthy whites fleeing the diversifying metropolis to the north it was the birthplace of the far right John Birch Society a hub for neo Nazi recruitment and a powerful springboard for race baiting Republican politicians including Richard Nixon and Ronald Reagan But in the years leading up to Blaze s disappearance Orange County was changing like the country as a whole it was rapidly diversifying to the outrage of many of its white residents No one was more opposed to the changes than America s resurgent neo Nazi groups one of which had recently gained a new member Sam Woodward Revealing how Orange County has exported racial hatred to the rest of the country and the world *American Reich* weaves this tragic tale together with stories from across the nation showing what this haunted place and the colliding paths of two of its residents reveal about America s fractured soul and our hope for healing

[End of the Line](#) Barry C. Lynn, 2005-08-16 In September 1999 an earthquake devastated much of Taiwan toppling buildings knocking out electricity and killing 2 500 people Within days factories as far away as California and Texas began to close Cut off from their supplies of semiconductor chips companies like Dell and Hewlett Packard began to shutter assembly lines and send workers home A disaster that only a decade earlier would have been mainly local in nature almost cascaded into a grave global crisis The quake in an instant illustrated just how closely connected the world had become and just how radically different are the risks we all now face *End of the Line* is the first real anatomy of globalization It is the story of how American corporations created a global production system by exploding the traditional factory and casting the pieces to dozens of points around the world It is the story of how free trade has made American citizens come to depend on the good will of people in very different nations in very different regions of the world It is a story of how executives and entrepreneurs at such companies as General Electric Cisco Dell Microsoft and Flextronics adapted their companies to a world in which America s international policies were driven ever more by ideology rather than a focus on the long term security and well being of society Politicians have long claimed that free trade creates wealth and

fosters global stability Yet Lynn argues that the exact opposite may increasingly be true as the resulting global system becomes ever more vulnerable to terrorism war and the vagaries of nature From a lucid explanation of outsourcing s true impact on American workers to an eye opening analysis of the ideologies that shape free market competition Lynn charts a path between the extremes of left and right He shows that globalization can be a great force for spreading prosperity and promoting peace but only if we master its complexities and approach it in a way that protects and advances our national interest
