American Poetic Theory:

American Poetic Theory George B. Perkins, 1972 *A New Theory for American Poetry* Angus Fletcher, 2004 Intense resonant and deeply literary this account of an American poetics shows how today's consumerist and conformist culture subverts the imagination of a free people Poetry the author maintains is central to any coherent vision of life *American Poetic Theory* Clyde Bowman Furst, 1911 **From Modernism to Postmodernism** Jennifer Ashton, 2006-01-05 In this overview of twentieth century American poetry Jennifer Ashton examines the relationship between modernist and postmodernist American poetics Ashton moves between the iconic figures of American modernism Stein Williams Pound and developments in contemporary American poetry to show how contemporary poetics specially the school known as language poetry have attempted to redefine the modernist legacy She explores the complex currents of poetic and intellectual interest that connect contemporary poets with their modernist forebears The works of poets such as Gertrude Stein and John Ashbery are explained and analysed in detail This major account of the key themes in twentieth century poetry and poetics develops important ways to read both modernist and postmodernist poetry through their similarities as well as their differences It will be of interest to all working in American literature to modernists and to scholars of twentieth century poetry *A New Theory for American Poetry* Angus FLETCHER, 2009-06-30 Amid gloomy forecasts of the decline of the humanities and the death of poetry Angus Fletcher a wise and dedicated literary voice sounds a note of powerful tempered optimism He lays out a fresh approach to American poetry at large the first in several decades expounding a defense of the art that will resonate well into the new century Breaking with the tired habit of treating American poets as the happy or rebellious children of European romanticism Fletcher uncovers a distinct lineage for American poetry His point of departure is the fascinating English writer John Clare he then centers on the radically American vision expressed by Emerson and Walt Whitman With Whitman this book insists that the whole theory and nature of poetry needs inspiration from science if it is to achieve a truly democratic vista Drawing variously on Complexity Theory and on fundamentals of art and grammar Fletcher argues that our finest poetry is nature based environmentally shaped and descriptive in aim enabling poets like John Ashbery and other contemporaries to discover a mysterious pragmatism Intense resonant and deeply literary this account of an American poetics shows how today's consumerist and conformist culture subverts the imagination of a free people While centering on American vision the argument extends our horizon striking a blow against all economically sanctioned attacks upon the finer stronger human capacities Poetry the author maintains is central to any coherent vision of life **The Beginnings of American Poetry, 1620-1855** Stanley Thomas Williams, 1971 To find out more information about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com **American Poetry** David Caplan, 2021-10-02 American poetry is a vast and perplexing literature valuing tradition as much as novelty Some have claimed that America needs a poetry equal to the country's distinctiveness Others point out that American poetry welcomes techniques styles and traditions that originate

from far beyond its borders In this introduction to American poetry David Caplan pays close attention to American poets verse forms meters and styles Examples range from Anne Bradstreet to the poets of the Black Lives Matter movement He considers how other major figures such as T S Eliot Phillis Wheatley Walt Whitman Emily Dickinson W H Auden and Langston Hughes emphasize convention or idiosyncrasy and turn to American English as an important artistic resource This concise examination of American poetry enriches our understanding of both the literature s distinctive achievement and the place of its most important writers within it American Criticism Norman Foerster,1928 **Identity and Society in American Poetry** Robin Mookerjee,2014-05-14 This new study of American poetry views the poetics of Ezra Pound and his avant garde followers in an entirely new light Both Romanticism and Modernism have variously been seen as revolutionary or retrograde narcissistic or self abnegating This interdisciplinary work looks past distinctions between schools and styles to reveal an unexpected link between poets spiritual aspirations formal experiments and political convictions Along the way it sheds light on the complex relationship between art and society Beginning with a fresh reading of Emerson s elusive philosophy the author identifies the tension between Romanticism and Liberalism as a source of Modernist poetics Critics have dissected the eccentric forms of avant garde American poetry but have never adequately explained its scrupulous avoidance of abstraction and elimination of the poet from the poem Drawing extensively on classic and contemporary theory this book reveals postwar poetics particularly the epics Paterson and The Maximus Poems as the fulfillment of a longstanding Romantic social vision one which seeks to invest Liberal social structures with a transcendental core This book is a valuable source for scholars with an interest in Emerson and Pound Studies the intellectual traditions leading to Modernism and the Objectivist and Black Mountain schools of American poetry The Theory of American Literature Howard Mumford Jones,1948 Cornell University Messenger lectures on the evolution of civilization 1947 Selected list of works on the history and philosophy of American literature p 195 200 *Visions & Revisions of American Poetry(p)* Lewis Turco,1986 *The Modern Voice in American Poetry* William Doreski,1997-12-01 A substantial addition to our understanding of how American poets from Frost to Lowell achieved that remarkable range of voice that distinguishes modern poetry It is a pleasure to read A Walton Litz Holmes Professor of Literature Princeton University Sophistication popular critical wisdom has it is not American But Doreski makes us see that very sophistication as part of a twentieth century version of American literary self assertion Times Literary Supplement Doreski persuasively demonstrates how much poetry has changed since Wordsworth and Browning both in terms of form and also perhaps more significantly in terms of address and subject matter Offers many specific and detailed examples of how modern American poetry has extended the possibilities of the lyric poem even as it works within an increasingly autobiographical vocabulary Harvard Review Proposing that modern American poetry requires limber criticism informed but not straitjacketed by contemporary theory William Doreski links the major American modernists to each other and to the larger social and cultural world Concentrating on such poets as Robert Frost Wallace Stevens William Carlos

Williams Marianne Moore T S Eliot Ezra Pound and Robert Lowell he finds that many share a willingness to expand or even reject the boundaries of poetic language William Doreski is professor of English at Keene State College in New Hampshire He is the author of *The Years of Our Friendship Robert Lowell and Allen Tate* and coauthor of *How to Read and Interpret Poetry* *Encyclopedia of Contemporary Literary Theory* Irene Rima Makaryk,1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the *Encyclopedia of Contemporary Literary Theory* provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture *The American Poet Laureate* Amy Paeth,2023-05-16 The American Poet Laureate shows how the state has been the silent center of poetic production in the United States since World War II It is the first history of the national poetry office the U S poet laureate highlighting the careers of Elizabeth Bishop Robert Frost Gwendolyn Brooks Robert Pinsky Tracy K Smith Juan Felipe Herrera and Joy Harjo at the nation s Capitol It is also a history of how these state poets participated in national arts programming during the Cold War Drawing on previously unexplored archival materials at the Library of Congress and materials at the John F Kennedy Presidential Library Amy Paeth describes the interactions of federal bodies including the Central Intelligence Agency the State Department and the National Endowment for the Arts with literary organizations and with private patrons including Prozac heiress Ruth Lilly The consolidation of public and private interests is crucial to the development of state verse culture recognizable at the first National Poetry Festival in 1962 which followed Robert Frost s Mission to Moscow and which became dominant in the late 1990s and early 2000s The American Poet Laureate contributes to a growing body of institutional and sociological approaches to U S literary production in the postwar era and demonstrates how poetry has played a uniquely important and largely underacknowledged role in the cultural front of the Cold War [Seventeenth-century American Poetry in Theory and Practice](#) ,1985 *Poe's Theory of Poetry and the Doctrine of Art for Art's Sake* Anne Délie Bancroft,1926 *Central Issues*

in Contemporary Latin American Poetic Theory Gustav Valentin Segade,1972 **A Companion to Twentieth-Century Poetry** Neil Roberts,2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century *Anthology of Magazine Verse and Yearbook of American Poetry* ,1917 **Three Centuries of American Poetry and Prose** Alphonso Gerald Newcomer,Alice Ebba Andrews,Howard Judson Hall,1929
