Landscapes of the Sacred Belden C. Lane, 2002 This substantially expanded edition of Belden C Lane s Landscapes of the Sacred includes a new introductory chapter that offers three new interpretive models for understanding American sacred space Lane maintains his approach of interspersing shorter and more personal pieces among full length essays that explore how Native American early French and Spanish Puritan New England and Catholic Worker traditions has each expressed the connection between spirituality and place A new section at the end of the book includes three chapters that address methodological issues in the study of spirituality the symbol making process of religious experience and the tension between place and placelessness in Christian spirituality The Home as Sacred Space in American Protestant and Catholic Popular Thought 1840 to 1900 M. Colleen McDannell, 1984 **Believing History** Richard Lyman Bushman, 2007-02-13 The eminent historian Richard Bushman here reflects on his faith and the history of his religion By describing his own struggle to find a basis for belief in a skeptical world Bushman poses the question of how scholars are to write about subjects in which they are personally invested Does personal commitment make objectivity impossible Bushman explicitly and at points confessionally explains his own commitments and then explores Joseph Smith and the Book of Mormon from the standpoint of belief Joseph Smith cannot be dismissed as a colorful fraud Bushman argues nor seen only as a restorer of religious truth Entangled in nineteenth century Yankee culture including the skeptical Enlightenment Smith was nevertheless an original who cut his own

path And while there are multiple contexts from which to draw an understanding of Joseph Smith including magic seekers the Second Great Awakening communitarianism restorationism and more Bushman suggests that Smith stood at the cusp of modernity and presented the possibility of belief in a time of growing skepticism When examined carefully the Book of Mormon is found to have intricate subplots and peculiar cultural twists Bushman discusses the book s ambivalence toward republican government explores the culture of the Lamanites the enemies of the favored people and traces the book s fascination with records translation and history Yet *Believing History* also sheds light on the meaning of Joseph Smith and the Book of Mormon today How do we situate Mormonism in American history Is Mormonism relevant in the modern world *Believing History* offers many surprises Believers will learn that Joseph Smith is more than an icon and non believers will find that Mormonism cannot be summed up with a simple label But wherever readers stand on Bushman s arguments he provides us with a provocative and open look at a believing historian studying his own faith *The Home as Sacred Space in*

American Protestant and Catholic Popular Thought, 1840-1900 Colleen McDannell,1984 **Landscapes of the Secular** Nicolas Howe,2016-09-05 What does it mean to see the American landscape in a secular way asks Nicolas Howe at the outset of this innovative ambitious and wide ranging book It s a surprising question because of what it implies we usually aren t seeing American landscapes through a non religious lens but rather as inflected by complicated little examined concepts of the sacred Fusing geography legal scholarship and religion in a potent analysis Howe shows how seemingly routine questions about how to look at a sunrise or a plateau or how to assess what a mountain is both physically and ideologically lead to complex arguments about the nature of religious experience and its implications for our lives as citizens In American society nominally secular but committed to permitting a diversity of religious beliefs and expressions such questions become all the more fraught and can lead to difficult often unsatisfying compromises regarding how to interpret and inhabit our public lands and spaces A serious commitment to secularism Howe shows forces us to confront the profound challenges of true religious diversity in ways that often will have their ultimate expression in our built environment This provocative exploration of some of the fundamental aspects of American life will help us see the land law and society anew [The Landscape of Yosemite](#) Haley Rose Peckett,Dartmouth College.
