

🔥 **This male adult Elephant in Sri Lanka was the first scientific record of dwarfism in the wild. He measures at just over 1.5 meters (five feet) in height**

# Americas First Elephant

**Channing Arnold, Frederick J. Tabor  
Frost**

## **Americas First Elephant:**

**America's First Elephant** Robert M. McClung,1991 Recounts how the first elephant came to America in 1795 met President Washington and toured the country

**Entertaining Elephants** Susan Nance,2013-03-27 How the lives and labors of nineteenth century circus elephants shaped the entertainment industry Consider the career of an enduring if controversial icon of American entertainment the genial circus elephant In *Entertaining Elephants* Susan Nance examines elephant behavior drawing on the scientific literature of animal cognition learning and communications to offer a study of elephants as actors rather than objects in American circus entertainment between 1800 and 1940 By developing a deeper understanding of animal behavior Nance asserts we can more fully explain the common history of all species *Entertaining Elephants* is the first account that uses research on animal welfare health and cognition to interpret the historical record examining how both circus people and elephants struggled behind the scenes to meet the profit necessities of the entertainment business The book does not claim that elephants understood endorsed or resisted the world of show business as a human cultural or business practice but it does speak of elephants rejecting the conditions of their experience They lived in a kind of parallel reality in the circus one that was defined by their interactions with people other elephants horses bull hooks hay and the weather Nance s study informs and complicates contemporary debates over human interactions with animals in entertainment and beyond questioning the idea of human control over animals and people s claims to speak for them As sentient beings these elephants exercised agency but they had no way of understanding the human cultures that created their captivity and they obviously had no claim on human social and political power They often lived lives of apparent desperation
