H. Duncan, Penny Hawkins, 2009-12-29 Animal welfare is attracting increasing interest worldwide especially in developed countries where the knowledge and resources are available to at least potentially provide better management systems for farm animals as well as companion zoo and laboratory animals The key requirements for adequate food water a suitable environment appropriate companionship and good health are important for animals kept for all of these purposes There has been increased attention given to farm animal welfare in many countries in recent years This derives largely from the fact that the relentless pursuit of financial reward and efficiency to satisfy market demands has led to the development of intensive animal production systems that challenge the conscience of many consumers in those countries In developing countries human survival is still a daily uncertainty so that provision for animal welfare has to be balanced against human needs Animal welfare is usually a priority only if it supports the output of the animal be it food work clothing sport or companionship In principle the welfare needs of both humans and animals can be provided for in both developing and developed countries if resources are properly husbanded In reality however the inequitable division of the world's riches creates physical and psychological poverty for humans and animals alike in many parts of the world **Secret of the Super-small Superstar** Lin Oliver, 2010-08-31 Daniel knows it would be dangerous if anyone found out about his tiny twin brother But when his sister accidentally posts a video of Pablo on her blog Daniel is catapulted to instant stardom Everyone is wowed by his special effects skills because there couldn't actually be a miniature boy dancing on camera could there Daniel's fear of Pablo being discovered is soon
