amounts of power with sometimes disastrous results On a more systemic level the need to make outsized bets on unproven talent reinforces bias with women and minorities still represented at woefully low levels This does not just have social justice implications as Mallaby relates China s homegrown VC sector having learned at the Valley s feet is exploding and now has more women VC luminaries than America has ever had Still Silicon Valley VC remains the top incubator of business innovation anywhere it is not where ideas come from so much as where they go to become the products and companies that create the future By taking us so deeply into the VCs game *The Power Law* helps us think about our own future through their eyes
