America Balkanized Brent A. Nelson,1994 Well written eye opening likely future for America June 29 2000 **American Immigration Policy** Steven G. Koven, Frank Götzke,2010-08-09 Collaboration can be a painful process especially between authors of different disciplines This book is an outgrowth of discussions between a Political Scientist and Economists at the School of Urban and Public Affairs University of Louisville The Economics perspective is found in Chapter 3 and was largely written by Frank Götzke The Political Science oriented review Chapters 2 and 6 as well as all the case studies were largely provided by Steven Koven Most of the book but especially Chapters 4 5 and 7 evolved as a consequence of conversations between the two authors We believe the product of two disciplinary approaches has produced a collective outcome that is greater than the sum of individual parts would have been In this book we have attempted to combine the analytical empirical historical political and economics approaches Chapter 3 presents an analytical model based on economics Chapters 4 and 5 summarize empirical census data related to immigrants and Chapter 6 reviews the legislative and political history of immigration Political Groups, Parties, and Organizations That Shaped America Scott H. Cherry,2014-01-03 Stephen M Cherry draws upon a rich set

of ethnographic and survey data collected over a six year period to explore the roles that Catholicism and family play in shaping Filipino American community life From the planning and construction of community centers to volunteering at health fairs or protesting against abortion this book illustrates the powerful ways these forces structure and animate not only how first generation Filipino Americans think and feel about their community but how they are compelled to engage it over issues deemed important to the sanctity of the family Revealing more than intimate accounts of Filipino American lives Cherry offers a glimpse of the often hidden but vital relationship between religion and community in the lives of new immigrants and allows speculation on the broader impact of Filipino immigration on the nation The Filipino American community is the second largest immigrant community in the United States and the Philippines is the second largest source of Catholic immigration to this country This ground breaking study outlines how first generation Filipino Americans have the potential to reshape American Catholicism and are already having an impact on American civic life through the engagement of their faith

Kinbacher,2015 Urban Villages and Local Identities examines immigration to the Great Plains by surveying the experiences of three divergent ethnic groups Volga Germans Omaha Indians and Vietnamese that settled in enclaves in Lincoln Nebraska beginning in 1876 1941 and 1975 respectively These urban villages served as safe havens that protected new arrivals from a mainstream that often eschewed unfamiliar cultural practices Lincoln s large Volga German population was last fully discussed in 1918 Omahas are rarely studied as urban people although sixty five percent of their population lives in cities and the growing body of work on Vietnamese tends to be conducted by social scientists rather than historians few of whom contrast Southeast Asian experiences with those of earlier waves of immigration As a comparative study *Urban Villages and Local Identities* is inspired in part by *Reinventing Free Labor* by Gunther Peck By focusing on the experiences of three populations over the course of 130 years *Urban Villages* connects two distinct eras of international border crossing and broadens the field of immigration to include Native Americans Ultimately the work yields insights into the complexity flexibility and durability of cultural identities among ethnic groups and the urban mainstream in one capital city
