Demystifying Tibet:

Demystifying Tibet Lee Feigon, 1996 This authoritative view of the history and culture of Tibet comes at a time when this ancient land is in danger of losing its identity under Chinese rule In a compact narrative account Lee Feigon examines the country behind the myths to locate the origins of modern Tibet and to sort out its controversial relationship with China In penetrating the veil of mystery that the West has often constructed over Tibet he reveals how long and distinguished is its history and how recent is the idea that Tibet is part of China Tracing this history through Mongol and Manchu rule in China the advent of nineteenth century Western imperialism and the radical and somewhat racist policies of Communist China which have aimed to transform Tibet Mr Feigon draws a compelling portrait of one of the world's most remote and exotic locales In the 1990s he shows the Chinese have flooded Tibet with their own people and threaten to reduce the Tibetans to a colorful but submissive minority in their own land Their success may determine Tibet's freedom and character for the next hundred years BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved 49

Myths about China Marte Kjær Galtung, Stig Stenslie, 2014-11-13 Communism is dead in China China Inc is buying up the world China has the United States over a barrel The Chinese are just copycats China is an environmental baddie China is colonizing Africa Mao was a monster The end of the Communist regime is near The 21st century belongs to China Or does it Marte Kjær Galtung and Stig Stenslie highlight 49 prevalent myths about China's past present and future and weigh their truth or fiction Leading an enlightening and entertaining tour the authors debunk widespread knowledge about Chinese culture society politics and economy In some cases Chinese themselves encourage mistaken impressions But many of these myths are really about how we Westerners see ourselves inasmuch as China or the Chinese people are depicted as what we are not Western perceptions of the empire in the East have for centuries oscillated between sinophilia and sinophobia influenced by historical changes in the West as much as by events in China This timely and provocative book offers an engaging and compelling window on a rising power we often misunderstand **Proceedings of the Tenth Seminar of the IATS, 2003. Volume 2: Tibetan Borderlands**, 2006-08-01 Since the occupation of Tibet by the Peoples Republic of China in 1959 former border principalities and feudatories of the former realm of the Dalai Lama have broken away and have developed sociopolitical and economic bonds with other states Sikkim Bhutan Ladakh and the Tibeto Burman speaking regions of Burma Nepal and others have all developed strong ethnic identities apart from Tibet Eleven well known scholars working in these borderlands of Tibet present in this volume aspects of their current historical linguistic and ethnographic research Originally presented at the Oxford University meeting of the International Association of Tibetan Studies in 2003 the volume provides a unique panoply of cultural diversity within the contemporary Tibeto Burman speaking world Illustrated with introduction **China** Robert B. Marks, 2011-12-16 This deeply informed and beautifully written book provides a comprehensive and comprehensible history of China from prehistory to the present Focusing on the interaction of humans

and their environment Robert B Marks traces changes in the physical and cultural world that is home to a quarter of humankind Through both word and image this work illuminates the chaos and paradox inherent in China s environmental narrative demonstrating how historically sustainable practices can in fact be profoundly ecologically unsound The author also reevaluates China s traditional heroic storyline highlighting the marginalization of nature that followed the spread of Chinese civilization while examining the development of a distinctly Chinese way of relating to and altering the environment Unmatched in his ability to synthesize a complex subject clearly and cogently Marks has written an accessible yet nuanced history for any reader interested in China past or present Indeed he argues successfully that all of humanity has a stake in China s environmental future

Censorship Derek Jones,2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression

Beyond Pain Thomas A. Breslin,2001-10-30 Breslin demonstrates that for two millennia states in East Asia Europe and America have successfully used pleasure to protect themselves and advance their interests at a small fraction of the cost of militarized policies Indeed the Chinese demonstrated that pleasure based policies primed a stream of highly profitable foreign trade and bolstered the state Pleasure was feared because it was effective as both an offensive and defensive strategy The colleens of Ireland and the bibis of India showed how inexorably effective pleasure could be in confounding militarily stronger invaders In contrast resorting to violence and pain generally undermined aggressive states Cultural factors have shaped the choice of pleasures used Food centered China has used food as well as sex and tourism as tools in its foreign relations Rome used wine Byzantium precious metals banquets and public spectacles Venice sex money and art England money and education America has used sex money education music and tourism Breslin s provocative text is based on a wide reading of secondary sources and some primary sources as well as a quarter century of teaching the history of foreign relations
