Dennett And His Critics Softcover:

Dennett and his Critics Bo Dahlbom, 1995-01-09 Daniel Dennett is arguably one of the most influential yet radical philosophers in America today In this volume Dennett is confronted by colleagues and critics from philosophy biology and psychology His reply constitutes an extensive essay which clarifies and develops further central themes in his philosophy The debate ranges over Dennett s whole corpus but special attention is given to his major work on consciousness *Consciousness Explained* The volume includes a critical assesment of Dennett s views on behaviouralism and the subjectivity of consciousness the nature of perception and mental representation intentional laws and computational psychology the rationality of thought culture as a virus the architecture of mind and the role of artifacts in thinking Also included is an introduction to Dennett s philosophy and a full bibliography of his publications *Elbow Room* Daniel Clement Dennett, 1984 In *Elbow Room* Dennett shows how the classical formulation of the problem in philosophy depend on misuses of imagination and he disentangles the philosophical problems of real interest from the family of anxieties they get enmeshed in imaginary agents bogeymen and dire prospects that seem to threaten our freedom Daniel Dennett David Thompson, 2009-08-15 This book offers an introduction to and overview of Dennett s ideas his writings and his contributions to the various fields of philosophy The Skeptical Inquirer , 2007 **Bibliographie de la philosophie** International Institute of Philosophy, 2001 Paperbacks in Print , 1971 **Books in Print** , 1977 **DANIEL DENNETT** John Symons, 2014 **SPECIAL INTRODUCTORY PRICE** Valid until 3 months after publication Daniel Dennett has been one of the central voices in the philosophy of mind for at least the past forty years Unlike most philosophers of his generation Dennett s work has resonated far and wide It has powerfully influenced the development of cognitive science robotics developmental psychology and artificial intelligence Indeed his work has led to many new lines of inquiry For example he has developed a theory of consciousness which provides an approach to naturalizing mind which circumvents many of the most significant philosophical arguments against the possibility of a scientific explanation of consciousness The daunting quantity and variable quality of literature available on Dennett makes it difficult to discriminate the useful from the tendentious superficial and otiose Moreover because no comparable philosopher has had a profound impact across such a wide range of disciplines and on intellectual culture in general responses to Dennett s philosophy are dispersed across a broad range of scientific philosophical and cultural domains That is why this new title in the highly regarded Routledge series *Critical Assessments of Leading Philosophers* is so urgently needed Edited by John Symons this new Routledge Major Work is a four volume collection of the best scholarship on Dennett the collected materials have been carefully selected from a wide range of academic journals edited collections research monographs and other sources The tightly focused organization of this collection allows users quickly and easily to access both established and cutting edge assessments of Dennett s work The set is also made for irresistible browsing With comprehensive introductions to each volume providing essential background

information and relating the various works to each other Daniel Dennett is destined to be an indispensable resource for research and study

Rorty and His Critics Robert Brandom, 2000-10-11 Essays written by thirteen of the most distinguished living philosophers together with Rorty's substantial replies to each and other new material by him offer by far the most thorough and thoughtful discussion of the work of the thinker who has been called the most interesting philosopher alive
