Ages including Old English prose and poetry Anglo Latin hagiography early medieval stone sculpture manuscripts and historiography to re envision British Catholic identity in the twentieth century long poem Jones returned to the English record to seek out those moments where the histories of the Welsh had been elided or erased At a time when the Middle Ages are increasingly weaponised in far right and nationalist political discourse the book offers a timely discussion of how the early medieval past has been resourced to both shore up and challenge English hegemonies across modern British culture
