

The background is a composite image. At the top, there is a perspective view of a large, ancient stone temple complex with multiple courtyards and a central structure with columns. On the right side, there is a close-up of a ram's head with large, curved horns, wearing a white head covering. At the bottom right, there is a detailed, ornate crown or tiara with intricate patterns and a central pointed element. The overall color palette is warm, with shades of brown, gold, and white.

## Der Tempel:

**The Forum Romanum** Christian Hülsen, 1904     7. Ägyptologische Tempeltagung René Preys, 2009 Building a temple implies the mastering of different technicalities such as the commissioning and payment of the building process procuring and transporting building material the organization of work and the practical execution of building and decoration projects But building a temple is also translating a religious idea into stone From the design to the consecration of the temple every stage in the process answers to a set of rules that enables the building to function as a temple The aim of the 7th Tempeltagung was to examine the relation between the technical and the theological demands of temple building How was architecture influencing the ritual how did ritual texts reflect the act of construction What was the relation between the mythical temple and the actual temple Who made the decisions and who executed them What technical and theological considerations lay at the base of the choice of material and of form In other words how did the technical aspects of building influence the theological ideas how was building a temple structuring religion     **Cityscapes and Monuments of Western Asia Minor** Eva Mortensen, Birte Poulsen, 2017-12-21 Cityscapes consist of houses streets civic buildings sanctuaries tombs monuments and inscriptions created by multiple generations of citizens and foreigners with an interest in the city they are interpreted and reinterpreted as expressions of past lives changing relations of power memories and various identities The present volume publishes 25 contributions written by scholars specializing in the history and archaeology of western Asia Minor New and well known material literary epigraphical numismatic and archaeological is presented and analyzed through the twin lenses of memory and identity The contributions cover more than 1000 years of cultural diversity during changing political systems from the Lydian and Persian hegemony in the Archaic period through Athenian supremacy and Persian satrapal rule in the Classical period then autocratic kingship in Hellenistic times until finally more than half a millennium of Roman rule Identities are voiced through several media and visible at many levels of the ancient societies So are the places of memory the Lieux de Mémoire and the studies presented here provide new insights into how human beings chose deliberately or subconsciously to commemorate their past and their ancestors and how identity was displayed and expressed under shifting political rule     The Shores and Cities of the Boden See Capper, 1906     *Proceedings*, 1893     *Acti*, 1893
