Harrap's essential English Dictionary ,1996 Quantum Theatre Paul Johnson,2013-01-16 Quantum Theatre uses the science of quantum mechanics to construct a rigorous framework for examining performance practice and the theatrical event and live performance as a means of exploring the implications of quantum mechanics Key ideas from physics are used to develop an interdisciplinary approach to writing about the work of a number of British theatre practitioners in terms of identity observation and play What this type of analysis does is enable an examination of aspects of performance that can remain hidden and so cast new light on the performance event This is the first study of its kind that develops such a framework for analysis of contemporary performance and provides a coherent alternative to postmodernism as a theoretical framework for writing about performance As such this book develops a methodology that can be applied to a wide range of performance practices Furthermore it presents an analysis of the work of a number of contemporary performance makers including Vincent Dance Theatre and Triangle Theatre **Summer of Love** Christoph Grunenberg,Jonathan Harris,Jonathan P. Harris,2005-01-01 Though more than a generation has passed since the revolutionary fervor of the Summer of Love of 1967 the 1960s in many ways seem with us still From recurring debates over the war in Vietnam to the perpetually appealing music of the Beatles and the Rolling Stone to the concern about youth drug use the legacy of the 1960s is ubiquitous in contemporary life The Summer of Love brings together an impressive group of historians artists and cultural critics to present a rich and varied interpretation of this seminal decade and its continuing influence on politics society and culture The Summer of Love which accompanies an exhibition at Tate Liverpool pays particular attention to the wildly creative psychedelic art of the era Perceptive essays on psychedelic comics graphic design and typography light shows and film successfully rescue psychedelic art from the fog of nostalgia and unjust critical neglect Distinguished contributors also explore the role of 1960s fashion and architecture and they consider anew the central influence of hallucinogenic drugs on the art of the era Running throughout the essays are the elements of epochal change from sexual liberation to student revolutions that still form the backdrop of our collective consciousness of the 1960s An incisive collection of writings on all aspects of 1960s art and culture tempered by time and critical distance The Summer of Love will be indispensable for those who wish they had been there or for those who were but can't remember it **The American City** Arthur Hastings Grant,Harold S.
