Barrier Contraceptives Current Status And Future Trends:

Contraceptive Research and Development Institute of Medicine, Committee on Contraceptive Research and Development, 1996-12-04 The contraceptive revolution of the 1960s and 1970s introduced totally new contraceptive options and launched an era of research and product development Yet by the late 1980s conditions had changed and improvements in contraceptive products while very important in relation to improved oral contraceptives IUDs implants and injectables had become primarily incremental Is it time for a second contraceptive revolution and how might it happen Contraceptive Research and Development explores the frontiers of science where the contraceptives of the future are likely to be found and lays out criteria for deciding where to make the next R D investments The book comprehensively examines today s contraceptive needs identifies niches in those needs that seem most readily translatable into market terms and scrutinizes issues that shape the market method side effects and contraceptive failure the challenge of HIV AIDS and other sexually transmitted diseases and the implications of the women s agenda Contraceptive Research and Development analyzes the response of the pharmaceutical industry to current dynamics in regulation liability public opinion and the economics of the health sector and offers an integrated set of recommendations for public and private sector action to meet a whole new generation of demand

Biosciences 2000: Current Aspects And Prospects Into The Next Millenium Charles A Pasternak, 1999-08-16 As the new millennium approaches it is appropriate to ask how far medicine and the life sciences have brought us and to wonder how specific fields will develop over the next decade or so This volume gathers together a number of leading scientists to give a bird s eye view of their field Much of the emphasis is on cancer microbial infections and immunology because these are some of the most rapidly advancing areas of research However the book is wide ranging and interdisciplinary and covers topics as diverse as reproductive health technology animal to human transplants drug resistance non invasive diagnosis by magnetic resonance novel membrane technology and carbon nanotubes The graduate student faced with a decision regarding his or her future topic of research could do worse than browse through this collection of articles by experts in the field
