Bartleby the Scrivener A Story of Wall Street is a short story by the American writer Herman Melville 1819 1891 The narrator an elderly Manhattan lawyer with a very comfortable business helping wealthy men deal with mortgages deeds and bonds relates the story of the strangest man he has ever known At the start of the story the narrator already employs two scribes nicknamed Nippers and Turkey to copy legal documents by hand Nippers the younger of the two suffers from chronic indigestion and Turkey is an alcoholic but the office survives because in the mornings Turkey is sober and Nippers is irritable while in the afternoons Nippers has calmed down and Turkey is drunk Ginger Nut the office boy gets his name from the little cakes he brings the two scribes An increase in business leads the narrator to advertise for a third scribe and he hires the forlorn looking Bartleby in hopes that his calmness will soothe the temperaments of Nippers and Turkey At first Bartleby appears to be a boon to the practice as he produces a large volume of high quality work One day though when asked by the narrator to help proofread a copied document Bartleby answers with what soon becomes his stock response I would prefer not to To the dismay of the narrator and to the irritation of the other employees Bartleby performs fewer and fewer tasks around the office The narrator makes several attempts to reason with him and to learn something about him but Bartleby offers nothing but his signature I would prefer not to One weekend the narrator stops by the office unexpectedly and discovers that Bartleby has started living there The loneliness of Bartleby's life impresses him at night and on Sundays Wall Street is as desolate as a ghost town and the window in Bartleby's corner allows him no view except that of a blank wall three feet away The narrator's feelings for Bartleby alternate between pity and revulsion Scribe or scribe was a Middle English term for a person who could read and write This usually indicated secretarial and administrative duties such as dictation and keeping business judicial and history records for kings nobles temples and cities Scribes later developed into public servants accountants lawyers and petition writers **BARTLEBY, the SCRIVENER. (Annotated): a STORY of WALL-STREET** Herman Melville,2021-05-05 This story in its most basic stripped down form is a simple one a successful lawyer in need of assistance hires a new scribe a kind of human Xerox machine to join his small firm Enter Bartleby a quiet initially efficient anti social little man Bartleby proceeds to work well as a copyist but refuses to help out with any other

office tasks or rather he simply prefers not to. The lawyer and his other employees are shocked but Bartleby just won't do what they ask. Bartleby is always in the office either working or staring out the window at a facing wall and it turns out that he actually lives in the office. Eventually this refusal grows more bizarre when Bartleby announces that he will no longer work as a copyist but prefers simply to stay in the office and not do any work. Finally he is firmly asked to leave but he just doesn't. Rather than take any more drastic measures to get Bartleby out of his office the lawyer actually picks up and moves his practice elsewhere. Another practice moves into the building only to discover that Bartleby is still a fixture there. The new occupants complain to the Narrator but he tells them the truth: Bartleby isn't his responsibility. At the end of their rope the new occupants have the police arrest Bartleby. The story concludes with Bartleby in prison. He prefers not to do anything there either and even prefers not to eat. The Narrator goes to visit Bartleby but unsurprisingly he can't get through to the strange scrivener. Eventually Bartleby wastes away and starves to death leaving only the Narrator to mourn him. As a rather odd end note the narrator informs us that Bartleby previously worked as a clerk in an obscure branch of the Post Office known as the Dead Letter Office sorting through undeliverable mail. We have to wonder what kind of effect these dead letters must have had on his psyche. But still Bartleby is a mystery left unsolved.
