Clinton's Partial Legacy - Wars of Interdependence Robert R. Morman,2000 This book describes arrogant legacy bound dictatorial Clinton's role in Wars of Interdependence that ceded U S sovereignty to non elected United Nations bureaucrats and its hired mechanic NATO Clinton's Executive Order PDD 13 served as the defining or divine authority Clinton was instrumental in deployment of U S armed might in Somalia Haiti Iraq Bosnia Afghanistan Sudan Kosovo East Timor and elsewhere His modus operandi is to instill peace by force everywhere if possible and then seek congressional approval and support after the fact Clinton is an unabashed dedicated globalist who favors borderless nations multiculturalism diversity and a non elected one world government at the expense and denial of individualism relatively pure cultures unifying national languages patriotic nationalism and sovereignty The U S suffered through the Revolutionary War against the British and our tragic Civil War only to have its hard won heritage scuttled unceremoniously by scurrilous Clinton Signs of displeasure with political economic interdependence and subjugation to international bodies are occurring in European countries like Austria Belgium Italy France Spain Germany Congo Turkey and Russia among others with resurgent signs of fervent nationalism

The Politics of War Powers Sarah Burns,2019-11-15 The Constitution of the United States divides war powers between the executive and legislative branches to guard against ill advised or unnecessary military action This division of powers compels both branches to hold each other accountable and work in tandem And yet since the Cold War congressional ambition has waned on this front Even when Congress does provide initial authorization for larger operations they do not provide strict parameters or clear end dates As a result one president after another has initiated and carried out poorly developed and poorly executed military policy The Politics of War Powers offers a measured deeply informed look at how the American constitutional system broke down how it impacts decision making today and how we might find our way out of this unhealthy power division Sarah Burns starts with a nuanced account of the theoretical and historical development of war powers in the United States Where discussions of presidential power often lean on the concept of the Lockean Prerogative Burns locates a more constructive source in Montesquieu Unlike Locke Montesquieu combines universal normative prescriptions with an emphasis on tailoring the structure to the unique needs of a society In doing so the separation of powers can be customized while maintaining the moderation needed to create a healthy institutional balance He demonstrates the importance of forcing the branches into dialogue putting them as he says in a position to resist each other Burns's conclusion after tracing changes

through Franklin Delano Roosevelt's administration the Cold War and the War on Terror is that presidents now command a dangerous degree of unilateral power Burns's work ranges across Montesquieu's theory the debate over the creation of the Constitution historical precedent and the current crisis Through her analysis both a fuller picture of the alterations to the constitutional system and ideas on how to address the resulting imbalance of power emerge Clinton's Foreign Policy John Dumbrell, 2009-04-02 This volume is a detailed account of President Clinton's foreign policy during 1992-2000 covering the main substantive issues of his administration including Iraq Bosnia and Kosovo The book emphasizes Clinton's adaptation of the elder Bush's New World Order outlook and his relationship to the younger Bush's Americanistic foreign policy In doing so it discusses in detail such key policy areas as foreign economic policy humanitarian interventionism policy towards Russia and China and towards European and other allies defence priorities international terrorism and peacemaking Overall the author judges that Clinton managed to develop an American foreign policy approach that was appropriate for the domestic and international conditions of the post Cold War era This book will be of great interest to students of Clinton's administration US foreign policy international security and IR in general John Dumbrell is Professor of Government at Durham University He specialises in the study of US foreign policy **Rumsfeld's Wars** Dale Roy Herspring, 2008 A highly critical but nonpartisan assessment of the controversial former Defense Secretary as told by one of the leading experts on civil military relations Focuses on Rumsfeld's notoriously domineering leadership style flawed vision for transforming the military and failures in the Iraq War *History of American wars including our Indian wars, war of the Revolution, Mexican War, Civil War, to and including the Spanish-American War of 1898-1899*, 1898 Presidential War Power Louis Fisher, 2004 For this new edition Louis Fisher has updated his arguments to include critiques of the Clinton Bush presidencies particularly the Use of Force Act the Iraq Resolution of 2002 the preemption doctrine of the current U S administration the order authorizing military tribunals The Pentagon and the Presidency Dale Roy Herspring, 2005 A fascinating account from the military's perspective of the historically tense and at times outright antagonistic relations between senior military leaders and American presidents and their advisors Closely examines and grades the impact of presidential styles on the military's view of the president *Register of the Military Order of Foreign Wars of the United States, National Commandery Military Order of Foreign Wars of the United States, 1900* *General Register of the Society of Colonial Wars* General Society of Colonial Wars (U.S.), 1895 Includes the constitution registers of officers of both the national and the state societies plus an index of ancestors and descendants **Prosecuting War Crimes and Genocide** Howard Ball, 1999 Combining history politics and critical analysis he revisits the killing fields of Cambodia documents the three month Hutu machete genocide of about 800 000 Tutsi villagers in Rwanda and casts recent headlines from Kosovo in the light of these other conflicts BOOK JACKET Society of American Wars, Commandery of the State of New York, Chartered Dec. 16, 1909 Society of American Wars of the United States. Airpower in Small Wars

James S. Corum, Wray R. Johnson,2003

The use of airpower in wartime calls to mind the massive bombings of World War II but airplanes have long been instrumental in small wars as well. Ever since its use by the French to put down rebellious Moroccan tribes in 1913 airpower has been employed to fight in limited but often lengthy small conflicts around the globe. This is the first comprehensive history of airpower in small wars conflicts pitting states against non state groups such as insurgents bandits factions and terrorists tracing it from the early years of the twentieth century to the present day. It examines dozens of conflicts with strikingly different scenarios the Greek Civil War the Philippine Anti Huk campaign French and British colonial wars the war in South Vietnam before the American escalation counterinsurgency in southern Africa Latin American counterinsurgency operations and counterinsurgency and counterterrorist campaigns in the Middle East over the last four decades. For each war the authors describe the strategies employed on both sides of the conflict the air forces engaged and the specific airpower tactics employed. They discuss the ground campaigns and provide the political background necessary to understand the air campaigns and in each case they judge the utility of airpower in its broadest sense. In their historic sweep they show how forms of airpower evolved from planes to police helicopters aircraft of the civilian air reserve and today's unmanned aircraft. They also disclose how small wars after World War II required new strategies operational solutions and tactics. By taking this broad view of small war airpower the authors are able to make assessments about the most effective and least effective means of employing airpower. They offer specific conclusions ranging from the importance of comprehensive strategy to the need for the United States and its allies to expand small wars training programs. Airpower in Small Wars will be invaluable for educating military professionals and policy makers in the subject as well as for providing a useful framework for developing more effective doctrine for employing airpower in the conflicts we are most likely to see in the twenty first century.

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
