Knoblock, 2014-01-23 This work offers a new and comprehensive account of the fastest and most beautiful sailing ships ever built It explores the quest for speed on the seas from the early 1800s through the fast paced times of the 1850s spurred on by the California Gold Rush of 1849 Not only are the career details of such noted ships as the Flying Cloud and Challenge discussed in detail but they are also put in context with the times in which they operated Their builders in East Coast states from Maine to Florida are discussed in detail as are the men and a woman in one instance who commanded and manned these ships The book documents the roles that owners and shipping agents played what kinds of cargo the ships carried worldwide and the unusual trades in which they participated

The Clipper Ship Era; an Epitome of Famous American and British Clipper Ships, Their Owners, Builders, Commanders, and Crews, 1843-1869 Arthur Hamilton Clark, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1910 edition Excerpt and famous Typhoon a ship more than double her size It should however be remembered with regard to the Sea Witch that she was at that time over five years old and had led a pretty wild life under

Waterman while she had known no peace with Frazer in command and had been strained and weakened by hard driving. Moreover a wooden ship after five or six years begins to lose her speed through absorbing water and becomes sluggish in light airs. In her prime and at her best with Waterman in command the Sea Witch was probably the fastest sailing ship of her inches ever built. The California clippers were of course racing all the time against each other and against the record. The strain upon their captains in driving their ships against competitors whose relative positions were unknown was terrific. It became a confirmed habit with them to keep their ships going night and day in all weathers and at their utmost speed. In order to appreciate what a passage of 110 days or less from an Atlantic port to San Francisco really means we must take a few of the long passages of 1851 made by ships that were not clippers: Arthur from New York 200 days, Austerlitz Boston 185 days, Barrington Boston 180 days, Bengal Philadelphia 185 days, Capitol Boston 300 days, Cornwallis New York 204 days, Franconia Boston 180 days, Henry Allen New York 225 days, Inconium Baltimore 190 days. The logs of these vessels tell of long weary days and nights of exasperating calms and dreary heartbreaking weeks of battle with tempests off Cape Horn. Some of the vessels built in 1851 did not take part in the races of that year as they were not launched until too late and did not arrive at San Francisco before 1852. Those among them which
