Clorindo Testa Architect:

Clorindo Testa, Architect Manuel Cuadra, Clorindo Testa, Alfonso Corona Martínez, 2000 This unprecedented and comprehensive retrospective of world renowned Argentine architect Clorindo Testa b 1923 covers all the periods of his career from his early masterpieces to his current work Testa first made his mark with his designs for the Banco Londres 1960 66 and the Biblioteca Nacional 1961 95 in Buenos Aires powerful urban megastructures of rough concrete that proposed a dialectical synthesis of public and private space recalling Le Corbusier but also looking ahead to movements such as the Japanese Metabolists Testa s architecture from the late seventies onwards acquired a more reflective human dimension exemplified by the Altera art gallery 1983 and Testa s own beach house 1983 and by larger urban structures such as the Buenos Aires Design Center 1990 and the Colegio de Escribanos 1999 This monograph documents these and several other projects in full detail with photographs by Hans Jurgen Commerell situating Testa s work in an international context for the first time

Clorindo Testa, a Centennial Tribute Alejandro Lapunzina, 2024 Sometimes good things happen entirely by chance It is the case of this little book Its origin can be traced back to a telephone conversation about a completely different subject that I had in May 2023 with Joaquina Testa Clorindo Testa s daughter and president of the Fundaci n Clorindo Testa Buenos Aires Argentina In that conversation we informally explored the possibility that the Illinois Architecture Study Abroad Program at BarcelonaEl Vall s the flagship study abroad program of the Illinois School of Architecture University of Illinois at Urbana Champaign also known as the Barcelona Program and its host institution the Escola Superior d Arquitectura del Vall s of the Universitat Polit cnica de Catalunya jointly organize a modest exhibition of Testa s architectural legacy to commemorate the centennial of his birth One and a half years later that informal conversation materialized with the organization of the exhibition Clorindo Testa a centennial tribute and a round table dedicated to celebrating his work This book comprises aspects of both on one hand it works as a sort of catalogue of the images displayed in the exhibition while on the other it includes eight rather personal approximations to the work of Testa by the specially invited guests who participated in the round table held at the exhibit s opening on December 16 2024 The main objective of the entire project was to celebrate the work of this extraordinary architect but in parallel our intention is to disseminate his work especially to an audience that because of geographical and generational distances may not be familiar with the transcendence of his architectural oeuvre Based on a preliminary selection made by Federica Conte a young Italian architect and researcher of Testa s work the exhibit presents a brief selection of some of the architect s most significant buildings from the emblematic and internationally praised Banco de Londres y Am rica del Sur 1956 1959 to some of his late work such as the Auditorio for the Universidad del Salvador 1998 2000 For the most part this book includes the same documents preliminary sketches drawings photographs displayed in the exhibition however there are a few exceptions in both directions that is some images included in the book are not displayed in the exhibit notably most of the images that illustrate the texts and vice versa not all

the images shown in the exhibit are included in this volume In closing we hope that those who have known Clorindo Testa and his work enjoy this little book as a heartfelt tribute and that those who are not familiar with it discover the work of one of the most original and greatest architects of the last seventy years
